A LESSON IN FINANCE

Cuban Case an Exception to Recognized Code Governing National Debts.

Spain Borrowed Against Will of Her Colonists and Now Should Pay.

United States Will Set Precedent Important to Tyrants and Financiers.

(By Associated Press.)
London, Oct. 21.—The Speaker, in a long article on the peace commission, says: "The reluctance of America to accept the burden of the Cuban debt, while at the same time upholding the doctrine of international law in which a debt incurred by a ruler binds his successors, rests upon a solid foundation."
"It is monstrous that a tyrant should be able to burden future generations simply because he is in possession of the material government. If investors felt that in international law loans incurred against the will of a people would not attach to the country in the event of a change of government there would be less of that monetary support of misgovernment which has disgraced the high finance of the nineteenth century."
"For fifty years Spain has ruled Cuba in defiance of the will of the Cuban people and in spite of the constant protest of the United States. The cost of her military operations was met by loans specially chargeable upon Cuba, in the first place in order to punish the Cubans, and in the second place in order to arrange for a cheap retreat in the event of being driven out by the Americans."
"In a word, the debt has been charged upon Cuba largely with the object of saddling it upon the United States. The bondholders were encouraged to look to the supported doctrine of international law as part security, while they knew they were lending to Spain against the will of both Cubans and Americans."
"It is hoped that the United States while assuming the sovereignty of Cuba will refuse to pay any part of the debt except the money used in the development of the island, thereby setting a most useful precedent by which tyrants and financiers will do well to take note."

"CHRISTIAN SCIENCE."

Harold Frederic's Death Laid to Account of This Form of Treatment.

London, Oct. 21.—The inquest over the remains of Harold Frederic, the newspaper correspondent and author, who died suddenly on Wednesday morning at Henley, of heart disease, was adjourned to-day until Wednesday next. The evidence presented was somewhat sensational. A despatch from London to the Associated Press on Thursday said it had been learned that Mr. Frederic, previous to his death, had been in the hands of "Christian scientists," and that a doctor was only summoned to attend him a few days before he died.

During the inquest Mr. Frederic's daughter Ruth said her father did not believe in doctors. She added that it was with his consent, but under the influence of others, that Mrs. Mills, a "Christian scientist," was summoned to attend him.

Kate Lyon, a member of the Frederic household, testified that the deceased had asked her to call in Mrs. Mills, and the latter came to the house and examined the system followed by the "Christian scientists." On the same day Mr. Frederic dismissed the doctors who had been in attendance upon him.

Most of Mrs. Mills' treatment, continued the witness, was what was known as "absent treatment." At the request of the friends of the sick man, the doctors were summoned, but the deceased informed them that when they had previously been attending him he had not followed their directions.

Mr. John Stokes, Mr. Frederic's amanuensis, testified that he had informed Kate Lyons that she might be charged with manslaughter if Mr. Frederic died without receiving medical treatment.

Drs. Brown and Freidberger, physicians who had attended Mr. Frederic, said that the deceased had suffered from rheumatic fever, and that he was paralytic on one side. His death, they ascertained, was due to syncope. Both declared their belief that with proper treatment the patient would have recovered.

The inquest was adjourned until Wednesday, in order to allow of the attendance of Mrs. Mills.

MINING SHARES.

Silver Bell		.62 1/2

THE ATHABASCA MINE

is in a dividend paying condition. About \$100,000 has been expended in development work, tramway, wagon road, 10-stamp mill and machinery. The properties are paid for, and the company has no debt whatever. The mill has been running some time, and the clean-up is expected within a few days.

There is six months' supply of rich ore and about twelve months of second-class already exposed. These are sufficient reasons for urging one's friends to buy this stock at present prices. It is no material advantage either to us or the company, as the latter has no stock for sale; in fact, there are only a few shares to be had. We, however, know the sharp advance that will very soon take place in the price of these shares.

Choice Residential and Business Sites For Sale.

We make a specialty of looking up cheap properties in good situation, and you can buy from us on the very best terms. We can sell you the lot, build you a house in a beautiful situation, on very easy terms. We have a fine business site for sale.

C. P. R. DIFFERENTIALS.

Adverse Decision of the Arbitrators Not on Merits and New Reference Suggested.

Montreal, Oct. 21.—(Special)—Regarding the decision of the arbitration rendered in Chicago two days ago, Vice-President Shaugnessy of the C. P. R. said to-day: "The arbitrators seem to have rendered a decision adverse to the C. P. R. We are advised that the decision is based on technical construction of the language of the resolutions describing the question which was to be left to arbitration. If we are correctly informed as to the basis of the arbitration, the question must be submitted again in such a form as to obtain a decision on its broad merits."

TWO BRAVE OLD FOLK.

Venerable Parents of Twenty-Four Children Make Their Sixth Venture in Matrimony.

Prescott, Mich., Oct. 21.—Donald B. McDonald, of Reno, aged 98 years, was united in matrimony yesterday to Mrs. Maggie Ann Oregon, aged 84.

The aged bridegroom was married three times in Canada and was the father of 14 children. The bride was married twice, once in Ireland and once in New York, and is the mother of 10 children. John B. McDonald officiated in tying the knot in the presence of the great grandchildren and great-great grandchildren of both groom and bride.

NEWS OF THE CAPITAL.

Dredging Lease Beneficiaries Given Two Years of Grace—Prohibition's Majority.

Furniture Men Protest Against Bartering Their Interests—A Market for Apples.

(From Our Own Correspondent.)
Ottawa, Oct. 21.—The board of governors of the Victorian Order of Nurses to-day decided to ask the Countess of Minto to be honorary president. The several district superintendents for Ottawa, Montreal, Halifax, Toronto and Klondike were admitted to full membership, and the badges approved by the Queen were presented to the Ottawa nurses who had passed the course of training.

Lord Herschell, General Lord Seymour and Miss Flora Shaw were visitors at Government House to-day.

Mr. Sontum, Canadian agent in Christiania, says the apple crop in Norway is ruined and that there is a splendid opening for Canadian fruit, especially Baldwins, and also evaporated apples.

Canadian furniture men were here to-day to protest against Mr. Charlton's proposition to include this class of goods in the reciprocity treaty with the United States. They say Sir Wilfrid Laurier and Sir Richard Cartwright.

Two-thirds of the plebiscite returns have been received by the clerk of the Crown in chancery, Mr. Chapple, who says the majority for prohibition for the whole Dominion will be about 15,000.

Holders of dredging leases for Dominion waters in the Territories have been given until 1900 to place their dredges on the ground.

THE HALIBUT FISHERY.

Another Vessel Operating for the Sound on Northern Banks.

Tacoma, Oct. 20.—The steamer Edith, belonging to the Pacific Halibut company, was yesterday inspected by Messrs. Cherry and Bryant, United States inspectors of boilers and hulls, and found in good condition. She sails to-day on her first voyage of the season to the Alaskan halibut banks. She cleared at the custom house yesterday for the deep sea.

The catch of the Edith will be sent to New York and Boston for the Atlantic Halibut company, one of the largest halibut concerns on the Atlantic. The fish will cross the continent in refrigerator cars.

Since last season the Edith has been put in first class condition for the halibut business at the expense of \$10,000. Her hull has been repainted and cleaned, she has received a Scotch marine boiler just from the factory, complete electric light plant, a searchlight, a new rudder and other improvements and repairs.

The steamer carries thirty men, eighteen of whom are fishermen. She has nine dories. While fishing two men occupy a dory. Each man attends to two lines each 300 feet long and on which are from 110 to 180 hooks attached to leaders. Herring are used for bait.

ONTARIO'S PLEBISCITE.

Toronto, Oct. 21.—Complete returns for every constituency in Ontario in the recent plebiscite show 154,503 for and 115,273 against prohibition, a majority of 37,230 for. Muskoka was the last constituency heard from, the figures showing a majority of 1,133 for.

WHAT FRANCE WANTS

Another Outlet to the Nile Would Suit Quite as Well as Fashoda.

British Hesitate to Grant This Concession and May Forceably Remove Marchand.

Russia Prepared to Back the French and Borrowing Money in Paris.

(By Associated Press.)
London, Oct. 21.—Government circles here are apparently satisfied that the Fashoda question will not lead to war. At the same time, the determination is reiterated not to budge from the position which the British government has taken up, no matter what the outcome may be.

It is said on good authority that the British government has also determined not to brook unreasonable delay, and that in the event of France declining to evacuate, the Marchand party will be removed from that place, although it is not expected that it will be necessary to resort to such extremes.

Paris, Oct. 21.—A despatch to the Temps from London asserts that the precise position regarding the Upper Nile question is this: Great Britain having declared her claims on Fashoda, asked France to submit whatever proposals she wished to make. M. Delcasse, the foreign minister, replied plainly that France demanded an outlet on the Nile, a reservation being made concerning the geographical point to be determined upon. Lord Salisbury is now consulting his colleagues on the subject.

The Temps this evening publishes a despatch from Nantes, saying that the fourth battalion of the infantry regiment comprising the 21st division, with headquarters at Nantes, have completed their equipment for war. Each man, it is added, has received 120 rounds of ammunition and his camp outfit, and the officers of all the four regiments of that division have been supplied with revolver cartridges. The division is now in readiness to march when ordered, and it is believed these troops are intended for coast defence. The defence of St. Lazare is also being organized.

Berlin, Oct. 21.—The St. Petersburg correspondent of the Cologne Gazette, in a despatch to that paper on the political situation, says: "Here also interest in the Nile question is rapidly increasing, and a Russian opinion on this matter will conform to the expectations formed in connection with her alliance with France." According to the Gazette's correspondent, the Russian finance minister, acting in concert with Count Muraviev, minister of foreign affairs, attempted to raise a large loan in Paris, and a similar attempt will be made in Berlin.

PARIS BECOMES DEFIANT.

Paris, Oct. 22.—A remarkable change has come over French opinion on the Fashoda question during the last 48 hours. The attitude of the public is more inflamed and more defiant. This is partly due to the time of the British press but more to the threatening manner of the British chancellor of the exchequer, Sir Michael Hicks-Beach, which paper calls "a provocation that is almost a threat of war."

The municipal council of Paris is abused on all sides for exhorting the government to avert war. In government circles the disposition seems to be to resist the British demands. It is reported that the policy of France as definitely stated to Great Britain includes the retention of Fashoda.

SIR MICHAEL'S SPEECH.

The following is the cable report of the speech by Sir Michael Hicks-Beach, to which reference was made in the despatches yesterday. This cable did not reach Victoria by wire:

London, Oct. 19.—Sir Michael Hicks-Beach, chancellor of the exchequer, speaking at North Shields this evening, announced that the government had opened negotiations with the powers, with a view of securing to the subjects of the various powers the right of "developing the respective spheres in which each country is especially interested."

Regarding the Fashoda question, he said he wished cordially to acknowledge the desire evidenced in the speeches of Lord Rosebery and Herbert Asquith to help the government in "a matter which might develop to the utmost gravity."

"It is impossible," he continued, "for France to maintain that she has political rights at Fashoda. She asked for time to receive Major Marchand's report, but until the contrary is proved, I decline to believe that France will refuse to withdraw. If she refused, the matter would assume an aspect as grave as is possible between two great nations."

"The government is animated by the friendliest spirit towards France, and does not wish to inflict humiliation. What we desire is fair treatment. Our work in Egypt is not completed, and Africa is big enough for us both—for

MOTHER KILLS THREE.

Toronto Woman Who Thus Prevented Her Little Ones From Growing Up Wicked.

"They Are Angels Now and I Shall Soon Be with Them."

(Special to the Colonist.)

Toronto, Oct. 21.—Eliza Burrell, wife of Charles Burrell, marble polisher, living at 559 Logan avenue, in the northeast end of the city, to-night murdered her three infant children, while apparently in a state of insanity.

Her husband returned from work about 6 o'clock, and his wife, who presented nothing unusual in her appearance, began to prepare dinner. Her husband asked for the children. She said they were sleeping upstairs. The husband said he would go up and see them, and after a slight attempt on the part of the wife to stop him, he went to their bedroom, where he found three little ones lying dead on the bed. The father rushed for a doctor, but the medical man, on coming, said they had been dead for some hours.

The unhappy woman talked freely about her act, not apparently realizing the enormity of the deed. She had smothered them with a cotton rag about 3 o'clock in the afternoon. She had killed them, she said, because she did not want them to grow up wicked. "They are angels now," she said, "and I shall soon be with them." She said she had killed the baby first, and the older children had looked on laughing, supposing she was playing with the child.

The demented woman was taken to police headquarters for the night. She has been in wretched health for many months, suffering first from rheumatic fever and later from an ailment of the heart, only coming from the hospital after treatment of the latter three weeks ago. She was subject to extreme melancholia, and doubtless her mind had been affected by illness.

She was formally arrested and locked up. The bodies were taken to the morgue, where an inquest will be held tomorrow afternoon. The murdered children were Ethel, aged 5; Stanley, aged 3; and Harold, aged 18 months. Shortly after the tragedy the 10-year-old son of Mr. Burrell by his first wife came in, and his step-mother treated him with much display of affection, but refused to allow him to stay.

Burrell, who is an elderly man, has two sons in the Baptist ministry, Rev. W. B. Burrell, of Sheridan avenue church, Toronto, and Rev. C. G. Burrell, of Westport, near Kingston.

THE COAST PIRATES.

Seattle Trio Sentenced at Nanaimo—Additional Year for Threatening Police.

(Special to the Colonist.)

Nanaimo, Oct. 21.—James Murphy, Thomas Smith and James Morris, of Seattle, were to-day sentenced to five years' imprisonment each for stealing at several places along the northern coast between here and Comox.

They also stole the \$800 sloop Apollo, of Mr. Seymour, a barrister of Seattle.

Smith, after being sentenced, said he would make it warm for the police when he was released, and Judge Harrison thereupon added another year to his term in the penitentiary.

WINNIPEG TRAVELLER HURT.
J. D. Windrum, a Winnipeg commercial man now in Nanaimo, met with a severe accident this afternoon by falling from his bicycle. He was badly cut about the face and head.

FIGHTING IN AFRICA.

Twenty Thousand Natives Engaged in Settling a Dispute With Transvaal Forces.

Pretoria, Oct. 21.—Serious trouble is feared with the Magate tribe in the Zoupsberg district. The natives recently massacred a Lutheran missionary and his family at the town of Zoupsberg and the Transvaal government sent an expedition to punish him.

The affair has now assumed serious proportions. Chief Opepu with 20,000 followers, fully armed, and four cannon supplied by white traders, has attacked the larger. Heavy fighting is proceeding.

The ultimatum of the commanding officer of the Transvaal troops, General Joubert, demanding an unconditional surrender, has been ignored by the natives and he has summoned three thousand burghers to reinforce the five thousand now in the field. The campaign promises to be prolonged.

The scene of the fighting is in the extreme northern portion of the Transvaal territory, west of the Casa country (Umphingaland), and southeast of the country of the Matabela.

A young Texas girl ate the heads of 25 parlor matches in an attempt to commit suicide. When she reported she swallowed a lot of hard and broken as an antidote. The combination was fatal in a few minutes.

WHAT FRANCE WANTS.

(Continued from page 1.)

France in the west and ourselves in the east. Surely we ought to be able to agree to respect one another's rights and claims.

"I hope, trust and believe the question is favorable for a friendly solution, but this country has put her foot down. If, unhappily, another year should be taken by France, the Queen's ministers know what their duty demands.

"It would be a great calamity if, after peace for upwards of 50 years, our friendly relations should be disturbed, and we should be launched into a great war, but there are greater evils than that, and we shall not shrink from anything that is coming, knowing that we are supported by a united people."

MR. REDMOND'S SYMPATHY.

Dublin, Oct. 21.—Mr. Wm. Redmond, Parliamt. member of parliament for West Clare, addressing a Home Rule meeting here this evening, called for cheers for Major Marchand, which were given with great heartiness. Mr. Redmond said: "The sympathies of Irishmen are with France."

TRADE REVIEWED.

Victoria Business Healthy With Brightening Prospects—Foreign Demand for Grain a Feature.

New York, Oct. 21.—Dun's report tomorrow will say: Reports of Canadian business are on the whole fairly satisfactory though there is as yet no such increase as might be expected at this season. The trade in staples is generally well maintained at St. John. There is no change in the outlook at Halifax. At Quebec trade is quiet, while good in all lines, but at Montreal there is less activity in one or two lines than might be expected. Exports of cheese and butter are liberal, but prices are weaker, while collections come in well and trade is on the whole in a sound shape. The money market is stronger with 4½ per cent. asked on call. The outlook is rather favorable for business at Toronto though manufacturers are busy and prices are firm. Trade is active in hardware and kindred lines at Hamilton, while groceries, boots and shoes and dry goods are moving satisfactorily. Much weather in the Winnipeg region has rather seriously affected harvesting the crop.

At Victoria trade is in a fairly healthy condition, with brightening prospects, and business in retail clothing and dry goods remains firm. Collections are moderately satisfactory. Jobbing trade is active in all lines at Vancouver with marked increase over last year and retail trade is steady with more business in seasonal goods.

BRADSTREET'S REPORT.

New York, Oct. 21.—Bradstreet's tomorrow will say: The dominant feature of the general business situation is unquestionably the active foreign demand for wheat, flour and indeed nearly all our cereal products, and the business reported on this account during the past ten days seems worthy of rank with the best recorded in any country with the world. While straightened stocks abroad and less satisfactory advices from other countries, notably Russia, Austria and Argentina, have furnished the plausible basis for much of the recent activity, an additional stimulating feature was injected into the situation this week by the visible appearance of the Franco-British situation.

General distributive trade appears to have suffered from bad weather conditions this week, which have interfered with regular business and deliveries, but, on the other hand has induced considerable buying of rubber and shoes, rubber goods and heavy clothing at many markets. The situation at the South is rather more favorable than for some time past, this resulting mainly from the abrogation of many senseless quarantine regulations, as a result of the advances of the frost line southward toward the Gulf.

Some important changes in the situation of textile goods and particularly cotton and wool products appear to be impending. Our import trade begins to show slight increase over corresponding periods a year ago, and the situation is of durable for non-durable goods in this movement points to an easier position in the custom situation. Prices are quite strong, notable in this respect being all the cereals, lamb, pork, cotton, print, cloths, and raw sugar. Lard, change is not noted in the iron and steel markets which, as for some time past, continues quiet.

Bank clearings for the Dominion of Canada were: Montreal, \$14,600,791; increase, 8.3 per cent. Toronto, \$8,018,558; increase, 4.4 per cent. Winnipeg, \$2,105,146; decrease, 31.0 per cent. Halifax, \$1,221,510; decrease, 6.8 per cent. Hamilton, \$535,481; increase, 26.5 per cent. St. John, \$529,816; decrease, 2.4 per cent.

DR. CHASE'S PREPARATIONS HAVE MERIT.

For piles, eczema, salt rheum, pin worms and all skin diseases Dr. Chase's Ointment is a positive cure. It is recommended by Dr. C. M. Harlan, of the Journal of Health.

Dr. Chase's Catarrh Cure, with blower included, will cure incipient catarrh in a few hours; chronic catarrh in one month's treatment.

Dr. Chase's Kidney-Liver Pills are the only combined kidney-liver pill made and will positively cure all kidney-liver troubles.

For the hide of a full grown giraffe, greatly sought in Africa, for whip and saddle making, the native hunters get from \$15 to \$25.

Prozen milk is no longer a novelty in Europe. Milk is taken when fresh and frozen in bricks of different sizes, and sold by size. The milk is said to be more hygienic than liquid milk.

Success comes to those who persevere. If you take Hood's Sarsaparilla faithfully and persistently, you will surely be benefited.

WANTED IN 'FRISCO.

A Fourteen Year Old California Girl Sent Home on the Direct Steamer.

Said to Have Been Abducted, But Her Story Is of Too Cruel Stepfather.

When the Pacific Coast steamer ship Walla Walla sailed for California last evening, she carried one girl passenger, who has in recent weeks given the detectives and police of San Francisco no small amount of worry. The young lady is Miss Ava Hess, and the anxiety she has caused is due to a very sudden leave of absence she took from parents and home a fortnight ago. A man named Isaac Wolfe is held responsible for her actions, and is under arrest in the Bay City, charged with the abduction of the girl and the sending of her to Victoria for immoral purposes. Ava was searched for in all directions, and was soon located in Victoria, being found soon after her arrival in the Palace lodging house. From there she removed to another quarter, but was kept under almost constant surveillance by the police until last evening Detective Palmer and Officer Mowatt saw her safely off on the Walla Walla. To the officers Ava confessed some of her troubles. She says she was never abducted from home, and that she ran away to avoid the ill-treatment of a cruel stepfather. She did not object strongly to having to return to the Golden Gate, and embarked with apparent light heart, prepared, as she told the police, to face all troubles.

Ava is a very attractive girl in appearance. She is 14 years of age, and her case has been taken up by Detectives McMurray and Anthony, in the interests of the Society for the Prevention of Cruelty to Children.

POLICE CHIEF INDICTED.

Accessory to Killing of Prize Fighter Because of Taking Money to Allow Contest.

Omaha, Neb., Oct. 21.—The jury in the inquest over the body of Wm. Walker, the prize fighter, killed in a fight at South Omaha by Andy Dupont, last Monday night, returned a verdict this afternoon holding Dupont as principal and Chief of Police Carroll, of South Omaha, accessory to the killing. The testimony shows that Carroll had received money to allow the fight to proceed. Warrants in accordance with this verdict will be at once issued.

CANADIAN AFFAIRS.

Reward for Dr. Ireland's Body—Peg-Leg Brown on Trial—Col. Gibson's Contest.

(Special to the Colonist.)
Montreal, Oct. 21.—Mrs. Ireland has offered a reward of \$500 for the recovery of the body of her husband, Dr. Ireland, whose extraordinary disappearance has been already narrated.

SHERIFF DYING.
Hamilton, Oct. 21.—Sheriff Morton is at the point of death.

EDITOR DEAD.
Welland, Oct. 21.—John R. Sawie, editor of the Telegraph, is dead.

ANOTHER BANQUET.
Montreal, Oct. 21.—A banquet will be tendered Lord and Lady Aberdeen by citizens here on November 10, on the eve of their departure from Canada.

CHATHAM'S MISFORTUNE.

Chatham, Ont., Oct. 21.—W. H. Teghe's large apple evaporating factory was destroyed by fire to-day. The factory has been in operation but two months, and employed 225 hands.

LAKE VESSELS.

Port Arthur, Oct. 21.—The steamer Chisholm and her tow, the schooner John Martin, are wrecked off Isle Royal. They had a cargo of 92,000 bushels of barley and 1,200,000 feet of lumber, which is a total loss. The crews were saved.

BRANTFORD STIRRED.

Brantford, Oct. 21.—The funeral of the late Dr. Cochrane yesterday afternoon was the most imposing ever held in this city. There was an outpouring of sympathy and regret such as never before witnessed here.

PEG-LEG BROWN.

London, Oct. 21.—The preliminary trial of Marion Brown, alias Thomas Allen, the wooden-legged man charged with the murder of Policeman Michael Twohey on June 24 last, commenced yesterday before Police Magistrate Parry. Several witnesses identified the prisoner as the man who was seen and hunted after the murder.

COL. GIBSON'S CHANCE.

Fergus, Ont., Oct. 21.—The formal nomination of candidates for the by-election to take place in East Wellingdon on Thursday next was held yesterday afternoon in the Town hall. Hon. J. M. Gibson, provincial secretary, who has been with out a seat since defeated at Toronto at the general election, was placed in nomination by the Liberals, and Dr. J. B. Coughlan by the Conservatives. The latter is the candidate who unsuccessfully ran on the Conservative ticket at the general election. Both candidates live outside the riding. It will be a hot fight.

COLOR LINE IN MASONRY.

Kentucky Grand Lodge Declares Non-Intercourse With Washington State.

Louisville, Ky., Oct. 19.—The grand lodge of Kentucky Masons at a session to-day unanimously adopted a resolution which recommends non-intercourse between grand lodges of this state and the grand lodge of the state of Washington because of the action of the latter in recognizing negro lodges.

Seattle, Oct. 19.—Past Grand Master J. M. Taylor when shown to-night the above despatch said: "The Masons of the state of Washington are, in this matter, contending for a principle of right and justice. Kentucky can certainly get along without us, and it is equally certain that we can get along without Kentucky. We can afford to bide our time until such time as the future shall demonstrate that the Masons of Washington are right on this question, just as the then loudly condemned abolitionists were right in their fight on slavery."

SHORT DESPATCHES.

AN ARCHBISHOP'S LOSS.

Santiago, Oct. 21.—General Wood received a communication from Washington to-day in which the government refused to pay any compensation to the archbishop of Santiago de Cuba.

SANTIAGO PROCLAMATION.

Santiago de Cuba, Oct. 21.—Gen. Leonard Wood, military governor pro tem of the department of Santiago, to-day issued a proclamation in ten sections which is a sort of provisional declaration of independence.

OHIO BANK CLOSED.

Lisbon, Ohio, Oct. 21.—The First National Bank of this place was closed to-day by the directors. Mr. J. Childs, who has been the cashier for twenty years, has not been seen since yesterday forenoon. The bank examiners are in charge of the institution.

A GOLF RECORD.

New York, Oct. 21.—Walter J. Travis, of the Oakland club, in a match with C. F. Watson, on the Essex county links to-day, made 18 holes in 73 strokes, thus breaking the best previous golf record of 74 strokes held by Howard A. Colby.

LILLIAN RUSSELL FREE.

The well-known actress, is again free from matrimonial ties. Signor Perrini, whose wife she has been since January 21, 1894, to-day received a decree of divorce in the Chancery court in Jersey City.

GULF STORMS.

St. John's, Nfld., Oct. 21.—The Labrador mail steamer Leopold, which arrived to-day, reports exceptional storms along the coast. Her captain thinks there is no likelihood of the arrival this autumn of Lieut. Perry's steamer Windward. Capt. John Bartlett, now supposed to be in the far North, after landing Lieut. Perry and his colleagues.

PENALTY OF SUCCESS.

London, Oct. 22.—The Rome correspondent of the Times says: Count Perini, proprietor of the Gazette di Venezia, has been sentenced to eighteen months' imprisonment for killing Signor Felice Carle, the poet, dramatist and member of the chamber of deputies, in a duel last March.

CHAMBERLAIN DENIES.

London, Oct. 21.—Mr. Joseph Chamberlain denies the accuracy of the report which credited him with saying that on his return from the United States on board the steamer Maestri, that an Anglo-American alliance was a matter to be settled in the near future and that he was returning to England with that object in mind.

SPANISH TRIANNO.

Madrid, Oct. 21.—El Nacional, the Conservative organ which is supporting Gen. Weyler, was ordered suppressed yesterday. An article previously submitted to the censor, although its editor, Senor Wiguera, a member of the chamber of deputies, had been imprisoned. The affair caused a great sensation and the suspension order was eventually annulled.

UNRULY STUDENTS.

London, Oct. 21.—Extraordinary exhibitions of rowdiness have characterized the opening of the winter session of the Scotch universities. Principal Storr's inauguration address at the University of Glasgow was so interrupted that the principal left the hall without finishing it; and Prof. Sanderson, occupying the chair of English literature in the University of Edinburgh, had a similar experience yesterday.

THE EMPEROR'S PROGRESS.

Constantinople, Oct. 21.—The Emperor and Empress of Germany with the Sultan reviewed the Turkish troops to-day from a window of the Yildiz Kiosk. The Majesties saluted the flag of each regiment. Later the day the Emperor and Empress visited the Mosque St. Sophia as well as many bazaars. Sultan Abdul Hamid presided at a grand farewell banquet for his Imperial guests at which all the Turkish ministers and foreign envoys were present.

INSURGENT EXACTIONS.

Manila, Oct. 21.—The insurgents are enforcing an export duty of \$35 a ton upon all southern ports brought up the coast. They are also enforcing five per cent. tonnage upon steamers and 20 per cent. upon freights. The American and British firms are compelled to pay these charges though they protest strenuously against an arrangement which is so unjust because goods entering Manila by railway from the north evade the duty.

OPERATIONS ON 'CHANGE.

Pacific Stocks in Demand in New York and in Berlin.

New York, Oct. 21.—Strength was manifest to-day not only in the Granger group, but also in the Pacifics, including Northern and Union.

The Evening Post's financial cable from London says:

"There was a general recovery in the stock markets here to-day on the more cheerful news regarding the Pashoda question and the steadiness of the Paris bourse. The best prices were not maintained, however, and the close was somewhat dull. Americans were distinctly the firmest, market arbitrage houses being short of stock, but New York selling finally caused a dull close. The New York demand for gold has slackened. The price is now 77s. 10d. Large arrivals of gold are due next week, and it is conjectured that they may go into the Bank of England. It is reported that a meeting of the London banks was held to-day to consider the question of the maturity of large quantities of German paper, and that it was agreed to arrange, so far as possible, for the renewal of such bills. I give you the report, though late efforts were current to check it. The Paris bourse was dull, and the Berlin market good. In the latter there was large buying of Canadian securities."

Closing prices: Tob., 116; Sugar 11½; C. P. S. 31½; C. S. 53; C. O. 21½; C. B. & Q. 11½; C. Gas, 109½; C. & N. W. 13½; R. I. & E. 30½; D. & H. 108½; Con. Gas, 30½; 177½; D. & H. 102½; D. & R. G. 137½; J. C. 80½; 12½; N. 54½; Man. Elev., 67½; M. P. 22½; N. P. 40½; N. Y. 40½; N. Y. C. & H. 115½; N. Y. L. E. & W. 1st, 104½; 2d, 104½; N. Y. O. & W. 14½; Pac. Mail, 32½; 32½; T. C. 27½; T. C. P. 13½; N. S. Leather, 61½; U. S. Rubber, 38½; U. S. receipts, 32½; do. pfd., 63½; Wab., pfd., 39½; M. Fraction, 150; Brooklyn Rapid Transit, 64.

C. P. R. in London, 82½; Commercial Cable in Montreal, 15 and 1709; 690; silver certificates, 60 to 61c.

Chicago, Oct. 21.—Wheat closed: Oct., 69½; Dec., 67½; May, 67½; Corn, Dec., 22½; Dec., 21½; May, 24c. Pork, Dec., 58.02½; Jan., 58.22½; Lard, Dec., 58.02½; Jan., 58.22½; Rice, Oct., 55.35; Jan., 54.75.

To get relief from indigestion, biliousness, constipation or torpid liver without disturbing the stomach or purging the bowels, take a few doses of Carter's Little Liver Pills, they will please you.

VANCOUVER'S BUDGET.

"Fighting Joe" Would Read Out Editor McLagan for Calling Him a Hard Name.

Row at Liberal Meeting—Nelson Barrister Wedded—Lee-Enfield Rifles.

(From Our Own Correspondent.)

Vancouver, Oct. 21.—The steamer Danube sailed to-day with the new Yukon gold commissioner, Mr. E. C. Senkler.

The steamer Comox arrived from the North last night with a number of mining men.

Three hundred Lee-Enfield rifles have arrived for the Second battalion. Vancouver's clearings since the inauguration of the new clearing house have been as follows: Week ending Oct. 6, \$513,809; week ending Oct. 13, \$560,462; week ending Oct. 20, \$580,801.

Henderson's dramatic company drew an unusually large house last night. The audience was well pleased.

The Liberals of Vancouver organized last night. There were 100 present. Alderman McQueen was elected President; F. Barnett, vice-president; I. S. Baxter, secretary; and C. M. Davidson, treasurer. The executive committee consists of the following: J. C. McLagan, B. P. Davis, H. B. Gilmour, W. Clubb, D. G. Macdonnell, G. McDonald, G. W. Grant, T. Mathews, R. McPherson, I. Coltart, Geo. Bartley, Watts, J. Coote, Ramsay, Allan, Dougherty, Fraser, Gladwin, Tyson, W. Downie, Garvin, Morris, Noltner, Wilkes, Bruce, Lawrence, McLean, W. Boulton, Gilchrist and C. M. Davidson.

During the proceedings Mr. McLagan objected to civil servants taking a part in the proceedings, and Hon. Jos. Martin objected to Mr. McLagan acting on the executive as he had called him a hard name in his public capacity. Both differences were smoothed over by the chairman, Mr. E. P. Davis.

Yesterday morning J. Campbell and T. Cole were committed by Magistrate Corbould at Westminster for the alleged robbery of \$300 from J. Barry. R. S. Lennie, barrister, Nelson, B.C., and Miss Edith Douglas, daughter of Benjamin Douglas, were married yesterday in St. Andrew's church, Westminster. The bride was attended by her sisters and the bridegroom by Mr. Lawson, of Victoria.

The London Daily Mail cabled its British Columbia correspondent to-day: "Relations France and Britain over Pashoda critical. Watch." The inference is that the warships at Esquimalt may make a move.

ABBEY'S
Effervescent Salt
Is an honest preparation, coming as a boon to disease-worried world.

No one knows better than those who have used Carter's Little Liver Pills what relief they have given for dyspepsia, dizziness, pain in the side, constipation, and disordered stomach.

MARRIED.

SCARLE-WALE—On the 19th inst., at the residence of the bride's father, the Rev. Bishop Christie, William Robert Scarle, of Highland District, to Alice Maud Mary, the second daughter of W. Wale, of Colwood.

DIED.

AGNEW—Drowned at Findlay Rapids, Peace river, on the 25th September. John Stephenson Agnew, aged 56 years. (Ontario papers please copy.)

College of Physicians and Surgeons.

EXAMINATION.
An examination of candidates for registration under the B. C. Medical act will be held at the Board of Health rooms, Parliament Buildings, Victoria, beginning at 10 o'clock on

Tuesday, October 25th

The Registrar will attend above named rooms on Monday, October 24th, from 10 to 12 and from 2 to 4, to receive names of candidates and to examine diplomas. For particulars apply to Dr. C. J. FAGAN, Registrar and Secretary, New Westminster, or to Dr. JOHN A. DUNCAN, Treasurer, Victoria.

VICTORIA THEATRE.

THE HENDERSON COMPANY.

Direction of Mr. David Henderson

SPECIAL EXTRA PERFORMANCE

TUESDAY, OCT. 25

"The Crust of Society"

By Alexander Dumas.

The people—Ed. M. Bell, Adelaide Fitzallen, Frank M. Raymond, Carrie Clarke Ward, Chas. Fleming, Guy Bates Post, Knapier Benedict, Russell Bassett, Frank C. Thompson, A. C. Willard, Harry F. Adams.

Direct from Great Northern Theatre, Chicago, with all the elaborate, special scenery.

Prices—25c, 50c, 75c and \$1. Seats on sale at the Victoria Book and Stationery Store (late Jameson's).

NOTICE

Tenders are invited for the purchase of all and singular the furniture, crockery, plate, linen, cutlery, carpets and all other household effects, according to inventory, of an eight-room dwelling house. Arrangements may be made to rent the house. For further particulars apply to

LANGLEY & MARTIN, Solicitors,
50 Government Street, Victoria.

MUSICAL.

PROF. HECTOR QUAGLIOTTI, teacher of mandolin, lute teacher in San Francisco Conservatory of Music; studio, 83 Yates street. Office hours from 12 to 2 p.m.

WAGON PAINT

SMART BOY, BRUSH and CAN of

The Sherwin-Williams

WAGON AND IMPLEMENT PAINT

Will make the old farm wagon look new. There are five strong colors, Red, Green, Blue, Yellow and Black, all ready to apply. A Green body with Red gear looks well. You forgot the paint the last time you were in town; remember it this time.

W. H. ELLIS, Manager.

FIRE PROTECTION.

The statements made by Chief Deasy in yesterday's Colonist are very important, and citizens should lay them to heart. It is not our desire to take the role of an alarmist, but with the experience of New Westminster fresh in mind, it is evident that Victoria needs better fire protection. The proposed outlay being thought necessary by those whose business it is to investigate such matters, if the voters refuse to sanction the loan, the fire underwriters may find themselves compelled by orders from their head offices to increase insurance rates, and this would cost the property owners very much more than the interest and sinking fund upon the \$20,000 asked for. In point of fact the sum which it is thought will be adequate for present purposes is comparatively small. A very ordinary fire, which the new appliances would prevent, would easily entail a loss of a much larger amount. The Chief's statement that "we seldom save a building" above Cook street makes action imperative. Voting on the proposed loan will take place on November 3rd.

THE PROVINCE AND THE YUKON

Commenting upon the suggestion that the Yukon should be annexed to British Columbia, the Toronto Star says that our history "is not calculated to assure the ordinary Canadian that the province is especially fitted to cope with the Yukon problem." The Star has read the history of British Columbia to very little purpose, if it really believes this. The Yukon problem is no more difficult than those with which the province has already successfully dealt, as it is identically the same in character. What is the Yukon problem? It is the administration of the law in a mining country. British Columbia has been dealing with such a problem successfully for years in a manner which has given profound satisfaction to very one, and without giving rise even to the faintest breath of scandal. There were the Fraser River, the Cariboo, the Cassiar, the Omineca and other "rushes," and all were handled without friction and at a very reasonable cost. In later years there has been the development of Kootenay, which presented problems fully as difficult as any which confronted the Dominion government in the Yukon. It was managed in such a way as to call forth the strongest expression of approval from every one who had any means of forming an intelligent opinion about it.

The Star may object that the Yukon is a long distance away. Distance in these days is measured not by miles but by days, and judged in this way, Klondike is nearer Victoria than Omineca, and very much nearer than Cariboo or Cassiar were, when the gold excitement in these places was at its height.

The nasty and contemptible insinuation, which the Star has seen fit to make, is probably the outcome of prejudice and ignorance. In common with some other Eastern papers, the Star has been stuffed full of all manner of misinformation about the government of this province. It was led to believe, through its political prejudice, the false and calumnious reports so diligently circulated by the opponents of the late administration. It ought to be ashamed of itself for so basely maligning the province.

The Star gives another reason. It says:

Canadians would not see the care of the Yukon pass into British Columbia's hands without some apprehension that the circumstances which have given such trouble to the Dominion government will lead to a serious bungle in the hands of a lesser power.

The Yukon has given no one any trouble. The source of such trouble as has arisen has been Ottawa. No easier problem could be suggested than the administration of the Northern country presented. The men who went into the Yukon, no matter from what part of the world they came, carried with them a profound respect for British law. They went there expecting that the law would be rigidly enforced, and that equal justice would be done between man and man. The Mounted Police will bear testimony that a population more easy to control never went into any country. It is a calumny upon the venturesome miners of the North to suggest that they gave trouble to the Dominion government. The framing of the mining regulations called for the exercise of good judgment, which was not in evidence, while if the British Columbia regulations had been adopted, there would have been no complaining from any quarter. We concede, however, that it was desirable to collect a royalty from the miners, and the provincial regulations do not make such a charge, but it has given no trouble. Possibly in many instances the payment of the royalty has been shirked, but the shirking of taxation is not confined to Klondike, and there has been no trouble of any kind about it. The trouble of which every one has complained was in the Gold Commissioner's office and the alleged post office, and not elsewhere, and the miners bore it with phenomenal patience. The good people of Toronto would not have submitted for fifteen minutes to the impositions endured by the rough miners of the North for a twelvemonth.

Trouble—there never would have been any suggestion of such a thing at Dawson, if the responsible ministers had exercised even rudimentary judgment in dealing with the plain problem before them.

THE PUNISHMENT OF VICTORIA.

The Vancouver World threatens Victoria with the early loss of one of its representatives in the House of Commons, and in so doing uses this extraordinary language:

Victoria has again and again demonstrated the fact that as a people it has little or no sympathy with Liberalism and Reform principles generally, and the dominant party in Canada will not be true to itself or past traditions if it allows the continuance of the system now in vogue regarding the representation of the province in the chief council of the nation.

Our contemporary has certainly the courage of its partisanship. No matter what reasons can be given against interference with the representation of this city as it has existed ever since Confederation, the World brushes them all aside because the voters here have hitherto seen fit to elect Conservatives to the House of Commons. The inference seems to be that if Liberals had been chosen the case would have been "altered quite." We hardly think that Sir Wilfrid Laurier will feel grateful to the World for the employment of such language in connection with such a threat.

Doubtless there are other constituencies in Canada which are over-represented according to the line or argument favored by the World. If the way the people vote is to be a guide in determining their right to representation in the House of Commons, then after each change of government we may be prepared to look for a gerrymander. We protest that the doctrine advanced by our contemporary is full of danger, and, if it is to be acted on, will call forth an indignant expression of opinion from every quarter of the Dominion. The demand that Victoria shall be punished for its conservatism by being deprived of a representative in the House of Commons is so startling that it only has to be mentioned to be condemned.

PRODUCTION AND CONSUMPTION.

A very marked decline in the value of exports from the United States, as compared with those of last year, is noted by the commercial papers of that country, and some uneasiness is felt because of it. The greatest drop is in cotton, and there is a growing opinion that the production of this crop is larger than the market is likely to call for. Doubtless the Egyptian and Italian supply tends to diminish the demand in the United Kingdom for American cotton. With the opening of Equatorial Africa to intelligent cultivation, it may be expected that large quantities of cotton will be grown there, and while there will undoubtedly also be a large market for cotton goods among tribes, which now use very little dress material of any kind, the probability is that cheaper production and the fact that African cotton can be paid for in manufactured articles will have a tendency to turn the attention of British buyers to that source of supply. Cotton is no longer king in the United States, and will probably never be able to regain its throne.

When speaking of the over-production of cotton, we are reminded that the real difficulty is not that too much is produced, but that too little is consumed. If every person in America used all the cotton really needed the supply would be inadequate to the demand. It is a remarkable thing that amid all the efforts made to open new markets, no one seems to think it necessary to investigate how the home market can be increased. We hear at intervals of over-production of this, that or the other commodity, but we do not hear of any reduction in the number of those who cannot get what is absolutely necessary to their comfort. Undoubtedly the purchasing power of the whole civilized world has greatly increased during the present century but there remains the "submerged tenth," which never can get what it really ought to have. So it comes about that United States' cotton planters are disturbed because they cannot find a market abroad for what ought to be consumed at home.

RAILWAY TICKETS.

There is some agitation in England over the question of railway tickets, the contention being made that a ticket should be good at any time and in any direction. For example, if a man buys a ticket from Victoria to Nanaimo, he ought to be at liberty to use it to travel from Nanaimo to Victoria, and if he buys a ticket limited for a definite time, and is unable to use it within the limit, he ought to be at liberty to travel on it at any time thereafter. The reply of the railway companies to this is that it would entail much more elaborate book-keeping, would prevent the closing of accounts and open the door to fraud. Moreover it is stated that special rates are granted under special circumstances only, and it would be unfair to compel the companies to stand by those rates under normal circumstances. Persons who travel much buy mileage tickets, when they can get them, and such a ticket is good at any time and in any direction. On suburban trains out of the large cities commuted tickets are sold at reduced rates, but these are good only between certain specified stations. It is hardly practicable to introduce the change suggested either in England or this country, and while undoubtedly some inconvenience and loss are caused to individuals by existing arrangements, they suffer very much less than the companies would by the adoption of the proposed system.

The Montreal Star gives the majority for prohibition all over the Dominion as 41,753.

Annual power of production 13,000,000 Gallons.

Very Old Special Special Liqueur.

GILLESPIE & CO., MONTREAL, Agents.

The News-Advertiser wants a Royal Commission to investigate the Yukon scandals. We agree with it as to the desirability of an investigation by commission, but doubt if a "Royal" commission could be appointed for that purpose. Our point is only as to the use of the word "Royal" in such a connection. The commission issued to Chief Justice McColl was called a royal commission, but it was not. It was a statutory commission. Royal commissions are those which the Crown or its representative issues by virtue of the prerogative. Other commissions may be either statutory, where they are appointed under a law expressly conferring upon the Crown the right to make the appointment, or parliamentary, where they are appointed in pursuance of a special resolution of parliament. It is desirable not to confuse these terms. We doubt the prerogative right of the Crown to appoint a commission to inquire into matters coming directly under the control of parliament. We assume that the Governor-General-in-Council is authorized by statute to appoint a commission in such a case, and one ought to be named. Parliament has undoubtedly such a right, and should exercise it, if nothing satisfactory is done between now and the session.

The Manitoba Free Press asks why the papers which quoted Mr. H. S. White's letters from Dawson do not publish his denial that he ever said he was going to Ottawa to lay charges before the government. As the Colonist was the first paper in Canada in which these letters appeared, and as its relations with Mr. White were more intimate than those of any other Canadian newspaper, it is right for us to say that Mr. White never said that he was going to prefer charges at Ottawa against the officials at Dawson. As a matter of fact, it was not Mr. White's original intention to discuss the matter with the members of the government. It was in the Colonist office that the suggestion was made to him that, on his way east, he should see some of the ministers and lay before them a plain statement of what he had already published in the press, and such other matters as he might feel justified in saying. If it has been stated anywhere that he intended to make specific charges, he was greatly misrepresented.

An embarrassment common to every political appointee to a judgeship was experienced by Mr. Justice Martin yesterday. He did not feel like hearing a motion in an election case, because he had taken an active part in the election. The feeling is natural, but unless the judge was an agent for a candidate in the case he is not disqualified, and even then he would be disqualified only as to that case. If the election cases are to come to trial, and, any way, in view of the probability of the preliminary points coming before the Full court of appeal, Judge Martin will have to devote his spare moments to schooling himself into forgetfulness of his political career.

Everything looks like a genuine advance in West Coast mining. The outlook is far better to-day than it has been at any previous date. This shows that development gives greater encouragement. There is room for another Kootenay on the West Coast, and when mining is in full swing, there, Victoria will go ahead by leaps and bounds. All that is required to give the district the needed impetus is the beginning of profitable shipments from one or two mines, and we judge this is not very far off. Next year may witness changes in that part of the province which would concentrate the attention of the investing world upon Vancouver Island to a degree comparable to the interest now taken in Kootenay.

The record of the Calumet and Hecla mine on Lake Superior shows that there is a lot of money in copper. This property has been worked for thirty years, and in that time has paid \$53,850,000 in dividends. It is now valued at \$55,000,000. Its average net earnings are \$6,000,000 a year. Nearly a million and a quarter dollars were spent in developing this mine. Probably no mine would find a purchaser more readily than one giving good promise of copper.

It is said on what appears to be good authority that the reason why the United States warships Oregon and Iowa have been sent to the Orient is not to do duty at Manila, but to be convenient to Chinese waters where it is thought they may have to co-operate with the British fleet to maintain the "open door" policy.

We beg to assure the Columbian that there is nothing the matter with New Westminster, but we cannot keep saying pretty things about that city all the time.

Hawaii is a part of the United States, yet, oddly enough, Hawaiian postage stamps, that is stamps bearing the arms of the defunct republic, are still in use.

Alcohol is now being made from gas. A good deal of "gas" has been already produced from alcohol.

A private London despatch says that the relations of Great Britain and France over the Fashoda affair are critical. The source of danger is to be found in the internal condition of France. On more than one occasion that country has sought in a foreign war relief from domestic problems.

It is said that Victoria was the only constituency west of Ontario to give a majority against prohibition at the late plebiscite.

THE NEW WESTMINSTER FIRE COST THE INSURANCE COMPANIES OVER \$800,000. This is less than the estimate made after the fire.

ANOTHER YUKON CRITIC.

Montreal Gazette.

The interview with Mr. Auzias Turenne, which appears in another part of this issue, is of unusual interest. Mr. Turenne had made a literary reputation on both sides of the Atlantic before Le Temps sent him as its special correspondent to the Yukon. His letters have attracted a great deal of attention in Paris; indeed, he has been accused of entailing his patriots away from sunny France to perish beneath the icy blasts of the Yukon. The account Mr. Turenne gives of his own experiences show how far these accusations was astray. It is no rose colored picture he draws of the Klondike diggings; he could not, of course, divest himself of his literary style, but his view of the Yukon is penetrated with the cold, clear light of the sub-Arctic regions. He sees things as they are, and describes them as he sees them. Mr. Turenne's previous experiences in the Black Hills of Dakota fitted him to judge correctly, and he had the advantage of expert advice. His report is a moderate and reasonable one, which helps to explain many things not very easy to understand. Many people have been disappointed because the Yukon has failed to fulfil the expectations aroused by Mr. Ogilvie's report, and some have been inclined to throw discredit upon his judgment. Mr. Turenne says Mr. Ogilvie told no more than the truth; he was perfectly justified in the conclusions he arrived at from the evidence under his eyes, but the rich discoveries made just before Mr. Ogilvie left the Yukon did not continue. Those that have been announced since have been speculative of journalistic manufacture. The claims worth having were taken up long before the great crowd of prospectors reached the Yukon, and naturally a great many were disappointed. There is no doubt that the country has been injured by the policy pursued by the government. The 20 per cent. royalty imposed on the placer mines was absurd; the 10 per cent. tax adopted as an afterthought is still an exaction too heavy for the industry to bear. Mr. Sifton seems to have got into his head the foolish notion that carries so many people to the Yukon, that gold could be picked up in abundance without any trouble. The tax of 10 per cent. on the gross output prevented many claims from being worked. A feeling of dissatisfaction and gloom settled down over the country, and the boom began to collapse. The addition of official mismanagement or misconduct to errors of administration gave the Yukon a serious blow, from which recovery is likely to be slow, and difficult. Meantime, the problem of transportation has settled itself. The Stikine route has been proved impracticable, and a railway built over the White Pass without government aid, making connections with unsubsidized steamers on the lakes and rivers, made access to the Yukon comparatively easy. Mr. Sifton will have to busy next session with deciding his officials to have time for a new railway deal. As a consular agent of France, Mr. Turenne was naturally disinclined to make or support charges against Canadian officials; but his silence is by itself eloquent. Apart from any question of corruption, he indicates serious faults in the system of administration. Mr. Sifton apparently made a bad machine and then failed to select the best men to work it. It is no wonder that the result was not satisfactory.

PICTURES...

OF.....

VICTORIA

AND.....

VICINITY.

A PORTFOLIO OF 6 BEAUTIFUL PHOTO CHROMOS

Just Issued By

The Colonist P. & P. Co., Ltd.,

And for sale at the bookstores and this office, is the finest series of pictures of Victoria and vicinity ever issued. These pictures were photographed by special arrangement with W. Goorlie Blackie and are the special property of THE COLONIST. The subjects of the pictures are:—

Provincial Parliament Buildings

Goldstream Falls, near Victoria, B.C.

British Naval Station, Esquimalt

Goodacre Lake, Beacon Hill Park

A Portion of the Business Quarter

Swans in the Lake, Beacon Hill Park

Each picture has a charm and beauty of its own, and has more the appearance of a little gem in water colors than a mechanical production. The reproduction of the "Parliament Buildings" is vividly realistic; "Goldstream" is presented in its beautiful dress of various greens, the falls being at their best; "Esquimalt" is probably the best picture of the harbor and ships that has ever been taken; "Goodacre Lake" and its surroundings is a beautiful picture, as is also the "Swans in the Lake." "A Portion of the Business Quarter" gives an excellent idea of the solidity of that section of Victoria, although the point of the Indian reserve from which it is taken does not make the best of foregrounds. The coloring is soft, warm and pleasing, and true to the subject treated. Ordinary photos of the same size, 9x3 inches usually cost 50 cents each, whereas this Portfolio of Six Pictures, any one of which is worthy of a frame, can be had for the sum of

ONE DOLLAR

"Pictures of Victoria and Vicinity"

is the most satisfactory evidence of the loveliness of Victoria and its surroundings that has been presented to the public; sent abroad it will give an excellent impression to those who have not yet visited here; it will also prove a delightful reminder to those who have. While being an excellent advertisement for our beautiful city, the pictures will be valued for their own artistic merit.

The number issued is not large, and as there will be a heavy demand for them immediately, especially for the holidays, all desirous of securing the collection should purchase at once. They may be had

Adjourned Until Monday.—The conference between the city council and the owners of the condemned buildings on Commercial street, called for yesterday, was adjourned until Monday morning.

The Voters' Lists.—At Monday evening's meeting of the city council Mayor Redfern will recommend that tenders be invited for printing and binding the voters' lists for 1898.

Sale of Property.—Mr. A. E. Haynes yesterday purchased from Messrs. Finlay & Hattenbury a portion of the property recently acquired by them at Oak Bay. A number of residences are shortly to be erected on the land.

Harbor Improvement.—Mr. T. C. Sorby has placed a large map, showing his proposed plan for harbor improvement, in one of the show windows of Messrs. Hibben & Co.'s establishment, Government street, where it attracts much attention.

To Entertain Nanaimo.—The members of the Geisha concert company, under the management of Mrs. H. D. Helmekeu, who appeared at the Victoria theatre on Thursday evening, were last night at Nanaimo. Their audience is reported to have been a large one, and notably well pleased.

"The Pearl of Pekin."—The scores, libretto, etc., for the opera of "The Pearl of Pekin," which the amateurs who produced the "Geisha" have now taken in hand, arrived a few evenings ago, and Conductor J. M. Finn will commence work on them at once. It will take a week or more to get together a cast and look over the manuscript, and the company will not commence the actual work of rehearsal until about the 25th inst., the date for the production of the opera being some five or six weeks hence.

Go to the Drill Hall concert to-night.

Election Petitions.—There were a batch of election petitions up before Mr. Justice Martin yesterday on motions by the respondents, Messrs. McPhillips, Dunsinuir, Bryden, Pooley, Turner and Bullen, to strike out the petition against them on the ground raised in the Eastern petition which was agreed some time ago. Mr. Justice Martin said that as he had before been elevated to the bench taken an active part in politics he would rather not sit on the cases, but Mr. Cassidy, who appeared for the respondents, said that this was over-sentimental on His Lordship's part, the questions raised were strictly law points and besides there was no other judge available. Mr. Justice Martin then consented to act, but the petitions, except the Bullen one, went over till to-day, owing to no affidavits being put in of service on petitioners. The Bullen case goes over till Monday.

Seventh Season.—The Arion club have decided to give the first concert of their seventh season on November 16. The number of subscribing members is limited, but there are still a few vacancies, and any who desire to subscribe should apply to the secretary without delay.

Sperry, the descriptive vocalist, at the Drill Hall concert to-night.

Minor Police Cases.—The hearing of the charge of vagrancy against Adolph Sleur was yesterday adjourned until to-day, Sleur contending that he has means of support. He denies that he was concealed in Messrs. Weiler Bros' store a few evenings ago, saying that he went there to make some purchases. Two hucksters were fined \$7 for leaving their horses unattended and a drunk was convicted and discharged.

Drowned.—Word has been received from the Hudson's Bay post at McLeod's Lake, B. C., of the drowning of John Stephenson Agnew, who is known to many in Victoria, and particularly to the members of the Orange order. The accident occurred at Findlay Rapids, Peace river, on September 25. He was a carpenter by trade, coming to the Coast from Ontario, and left here for the Northern interior about four years ago.

New Zealand's Commissioner.—Yesterday Mr. John Holmes, New Zealand's commissioner, was taken over to the parliament buildings by Mr. G. A. Kirk, President of the board of trade, and introduced to the Premier and Hon. Mr. Cotton. Afterwards the visitor was entertained at lunch by Mayor Redfern and then for a drive about the city. He expressed himself as being much pleased with the courtesy shown him during his short stay in Victoria.

Gave a Wrong Address.—The ire of Constable Anderson, of the city police force, has been aroused. A few days ago he caught a man driving a horse over Polar Bridge at a pace faster than a walk and forthwith stopped him to secure his name and address on which to base an information. A name and address were given but now that the officer has secured the necessary summons he cannot find the name given him in the directory and there is no such address as that given.

Return of The Hendersons.—The Henderson company will finish their engagement in Vancouver on Monday evening and arrive here Tuesday afternoon, when the final performance will be given by this organization on Tuesday night. The company sails for San Francisco on Wednesday evening, where an extended engagement has been booked. The sale of seats is now going on, which is a good indication that the "Crust of Society" will be given before an audience that will crowd the theatre.

An Elocutionary Recital.—An interesting recital was given at the High school yesterday afternoon by Mr. F. Finch-Smiles before the pupils, and was marked by intense enthusiasm on the part of the listeners. The selections rendered were as follows: "The Dream of Eugene Aram," by Tom Hood; Gilbert's "Yarn of the Nancy Bell"; Shylock's address to Antonio from "The Merchant of Venice," and a school-boy's version of "The Charge of the Light Brigade." Mr. Smiles, it may be noted, is attached to the Austin Conservatory of Music as a teacher of elocution, and already possesses a class at the High school of about 40 pupils.

68 Yates Street, Stoddart

BRITISH COLUMBIA FORESTRY.

Phil R. Smith, of This City, the New Chief Ranger-Treasurer E. J. Salmon Retires.

The annual convention of Columbia High Court of the A. O. F., has just been brought to a close at Wellington, from which place Mr. J. J. Randolph, one of the Victoria delegates, returned yesterday. The session was occupied largely with routine business, although the reports of the several high court officers were eminently satisfactory in that they show a substantial growth in the order both in membership and financial strength.

Secretary P. P. Watson's report showed a total membership in courts 5755, 5635, 5886 and 7627 of 410, with funds to the amount of \$27,789, Court Vancouver No. 5755, of this city, still bears the banner with a total of 155 members and \$13,177 at credit. Court Lord Dufferin, of New Westminster, is necessarily omitted in the above recapitulation, as all its records were destroyed in the late fire, and it was therefore impossible for its officers to report in the usual way.

On the recommendation of the district chief ranger, Mr. J. Orr Fleming, Vancouver, it was decided to donate from the district court a new equipment of goods and regalia for Court Lord Dufferin, while authority was granted for the opening of a third court in this city, the stronghold and centre of British Columbia Forestry.

A communication was received and accepted with a unanimous vote of thanks from the high court of Canada, granting permission to the members of the order who are under the jurisdiction of the high court of England to take insurance under the Canadian law, and was recommended for the important post of district organizer.

Resolutions of condolence were adopted in connection with the death of Thos. Watson, Court Nanaimo Foresters, No. 5886, which occurred on the eve of the district court session, and it was decided to hold the next annual convention here in October of 1899.

Officers for the ensuing year were duly installed as follows by P.D.C.R. Bro. John Hilbert: P.D.C.R., Bro. J. Orr Fleming, Vancouver; D.C.R., Bro. Phil R. Smith, Victoria; D.S.C., Bro. Wm. Bennett, D.T., Bro. S. A. Bantley, Victoria; D.S., Bro. P. P. Watson, Victoria; trustees, Bros. E. J. Salmon, J. J. Randolph and J. Trace.

It will be noted that Bro. S. A. Bantley, also of Victoria, succeeds Bro. Phil R. Smith in the office of district treasurer, which he has held continuously since the establishment of the order in this province. His long and faithful service will be marked by the presentation of a suitable souvenir, which the district officers have been instructed to secure.

Meet This Evening.—A meeting of the Victoria branch of the Dominion Alliance will be held in the Temperance Hall this evening at 8 o'clock. All temperance workers are cordially invited to attend.

The Games are Closed.—As a result of the recent dissensions among the Tongs in Chinatown, Detective Palmer paid a visit to some sixteen fan-tan houses last evening, and informed the keepers that they would have to close and keep closed. There was considerable objection raised, but the players of the game must wait while before they can again try their fortune.

Hear Mr. Sperry, descriptive vocalist, at the Drill Hall concert to-night.

Victoria Seamen's Bethel, Oriental avenue and Johnson street.—Opening services Saturday, October 22. The work of the Bethel will be among the men of the sea, auxiliary to, and in harmony with, all Evangelical churches. Gospel services will be held every evening, except Thursday, at 7:30. John MacNeill, formerly seamen's missionary, will conduct the work. A cordial invitation is extended to all. "For Christ and the Church."

The subject of Lecture in the Catholic Apostolic church (north end of Fernwood road, near Old Fellows' hall), on Sunday evening next, at 7 o'clock, is "The Second Coming of Our Lord." Many persons in all parts of the churches of Christendom are learning to look for and expect the early return of our Lord to this earth, but have confused and indefinite ideas on this subject. An effort will be made in this lecture to clear up confusion in the mind, and to show what the Bible teaches upon this subject. Christians of all denominations are cordially invited.

Quite the Fad.—The Saturday night Drill hall concerts which since their institution have become quite the popular fad, are this year making even larger and more enthusiastic audiences than those of last season. Next Saturday an especially strong attraction will be presented, while for tonight the "extra" is Mr. C. H. Sperry, vocalist, and the entire programme as hereunder:

Overture—"Martha".....Plotow
Waltzes—"Ma Belle".....Do
Chas. Piece—"The Guardmount".....Ellenberg
Selection fr. "An American Beauty".....Kerker
Selection fr. "The Shop Girl".....Caryll
Vocal Solos.....
Mr. C. A. Sperry.
Selection fr. "Robin Hood".....De Koven
March—"African".....Ramsdell
God Save the Queen.

A SUBSTANTIAL GAIN.

"I was very weak and hardly able to walk. My blood was thin and I was as pale as death. Being told about Hood's Sarsaparilla I began taking it and in a few months I had gained twenty pounds in weight. I kept on with it until I was as well as ever." Arthur Mills, Dresden, Ontario.

BANK OF B. C.

The New Building Which Will Soon Rise in Westminster.

The plans prepared by Messrs. F. M. Rattenbury and J. Gerhard Tarkie for the new building for the Bank of British Columbia at New Westminster show an effective two-story building with a large basement, both the street fronts being of pressed brick. A handsome entrance at the corner of Columbia and Mary streets is approached by a flight of semi-circular stone steps. That portion of the large banking chamber devoted to the use of the public will be tiled in mosaic, and there will also be a dado of glazed tiles. The ceiling will be in panelled cedar, with massive beams, and the manager's room will all be in panelled cedar. At the rear of the building are premises for the caretaker and lavatories. The construction of the double safe will be of the latest design. Besides the bank, there will be two large stores on Mary street. A flight of stairs from the centre of the building on Columbia street leads to two spacious and well-lighted suites of offices on the first floor. The whole building will be heated by steam and lighted by electricity, and will be a distinctive feature and ornament to the new city of Westminster which will soon rise from the ruins of the old. The pressed brick used will be the product of the British Columbia Terra Cotta Works, of this city.

A LIVELY SCRAP.

Revolver Twice Discharged During a Fight on the "Princess Louise."

What gave promise of ending in a lively shooting scrape occurred early yesterday morning on the steamer Princess Louise. The intervention of the night-watchman on the steamer, however, changed the course of events and the most serious charge that could be laid against Gus Holt, the man who handled the revolver, was one of aggravated assault. Some evidence was taken in the police court yesterday in the case and it would appear from that that William Craigie, the complainant, was more to blame than the man he had arrested. The magistrate at any rate took a lenient view of the case and allowed Holt out on his own recognizance until Wednesday when the case will again be called.

From the evidence of Craigie it would appear that he was coming out of the California hotel yesterday morning and called out to Holt, who was passing. In witness of this Holt thereupon "hit me a belt in the jaw, knocking me on the sidewalk." Holt continued on his way down Johnson street to the steamer on which he is a fireman, and when Craigie pulled himself together he followed but did not reach the boat until Holt had got into his cabin and was partly undressed.

"I always knock at a man's door before going in and I did so on this occasion," said the witness.

Despite this politeness, however, Holt assented to the intrusion, and tried to keep Craigie out. The latter was determined and succeeded in forcing his way in. Holt then took his revolver to keep Craigie out and in the scuffle the fire-arm was twice discharged. Fortunately neither ball struck anybody and the watchman arrived and separated the combatants. Then when the trouble was over Craigie stood at the head of the wharf and cried lustily for a policeman. Constable Walker went down on the run and on Craigie's information arrested Holt and charged him with shooting with intent. The charge was afterwards changed to aggravated assault.

Holt admits having picked up the revolver to beat Craigie off but says he did it in self defence.

Big Gun Drill.—The first of a series of three big gun drills will be held at Fort Macaulay to-day by teams from the Fifth regiment.

Be Not Deceived! A Cough, Hoarseness or Croup are not to be trifled with. A dose in time of Shill's Cure will save you much trouble. Sold by Cyrus H. Bowes.

Saturday Classes.—At the high school at 10 this morning the discussion will be continued on Supt. Eaton's paper on school classification. Mr. Pines will continue his class on plant morphology at 11.

Ball Postponed.—On account of their inability to secure a hall the Ladies' Auxiliary of the Jubilee hospital have been compelled to postpone their annual charity dance until January, when it will be held in the Drill hall.

For Stealing a Watch.—Joe Dillon, who has had some acquaintance with the police before, was arrested last evening by Constable George Carson for stealing a watch from a Japanese companion. The prisoner produced the watch.

Ladies, Take the Best.—If you are troubled with Constipation, Sallow Skin and a Tired Feeling, take Karl's Clover Tea; it is pleasant to take. Sold by Cyrus H. Bowes.

SALMON SHIPS SAIL.

British Ship Blytheswood Leaves the Fraser With the Second Cargo of Fish.

R.M.S. Warrimoo Sails Full of Cargo and Passengers—Shipping for September.

Two of this year's salmon fleet have left the Fraser with cargoes for the United Kingdom, the last to sail being the Blytheswood, which left on Thursday. She was given despatch by Messrs. Bell-Irving & Co., of Vancouver, and carries 66,457 cases, valued at \$332,285. The Acanuas, which left about a week ago, was loaded by Robert Ward & Co., Ltd., of this city. The amount of her cargo has already been given, but the different shipments composing it, which have just been obtained, are as follows:

W. Morris & Co.	10,273
R. P. Rithet & Co.	10,000
Farrell, Prentiss & Co.	12,852
Cleve Canining & Cold Storage Co.	3,000
E. A. Wadams	11,416
A. Houston	67
Fraser River Canning Co.	456
J. H. Todd & Co.	2,000
Robert Ward & Co.	7,103
Carlisle Canning Co.	16,101
English Bay Canning Co.	7,662
National Packing Co.	50
Finley, Durham & Brodie	2,067
Westminster Packing Co.	2,059
Ontario Packing Co.	1,537
Total	88,815

The Pacific Coast Steamship Co. was represented in port yesterday by the steamers Umatilla and Walla Walla, the former, from San Francisco, having arrived during the early morning and landed 110 tons of freight before proceeding to the Sound. She had 25 cabin passengers, and the Walla Walla had, leaving for the Golden Gate last evening, the following ticketed here: Miss MacDonald, Miss A. Hess, Miss York, Mrs. S. H. Henderson, Mrs. J. S. Gay, Miss Cushing, Mrs. Corfield, J. Gordon, E. P. Thompson and Henry Glide.

SHIPPING FOR SEPTEMBER. In their monthly freight and shipping report for September R. P. Rithet & Co., Ltd., say: During the past month there has been some enquiry for vessels to take general cargo, but practically no demand for grain carriers either at San Francisco or in the North. In the latter quarter there has been an unusually fine crop, but freights have failed to respond, partly because of the farmers with which grain is held and partly, no doubt, owing to the want of encouragement from consuming markets. In the lumber market rates have been maintained fairly well and quotations are either unchanged or only slightly down from last month. There is report of a very well defined shortage of logs, shared by all exporting mills, and this is having considerable effect both on the freedom of shipments and the prices of finished lumber. The David Morgan, of the prospective salmon fleet, having been given up for lost, has been replaced by the Celtic Race, of which the charter is now announced at a lump sum.

MARINE NOTES. The Danube left for the North yesterday morning with about a dozen passengers. She will call at Lynn canal ports. Steamer Oscar left for New Westminster yesterday with a cargo of powder and glass. The Canadian-Australian steamship Warrimoo, Capt. Hay, sailed for Honolulu, Suva, Wellington and Sydney at 10 o'clock last night on her twenty-ninth outward voyage. She was full of mixed freight, and carried a very large number of passengers, including many Old Country and Eastern people, but few British Columbians. Steamer Dirigo went North last night, full of cargo, for Lynn Canal ports, her lower deck being occupied principally by fatter cattle, having been between 20 and 30 passengers for the Sound. A C. P. R. bulletin announces the arrival of the Cunard liner Lucania at New York last evening.

ENTERED. Str. Islander for Vancouver. Str. City of Kingston for Port Townsend. Str. Walla Walla from Port Townsend. Str. Umatilla from San Francisco. Str. Hope from Salt Spring Island. Str. Danube from Stevenson. Str. Oscar from New Westminster. Str. Oscar from Sooke. Barkentine Vidette from Oyster Bay. CLEARED. Str. Islander for Vancouver. Str. City of Kingston for Port Townsend. Str. Umatilla for Port Townsend. Str. Walla Walla for San Francisco. Str. Oscar for New Westminster. Str. Danube for Skagway.

ANGELIC DOCTRINE. As to Real Presence—Voluntary Confession Sanctioned—Prayers for Dead Commended. London, Oct. 15.—Since John Kensit's anti-Ritualistic crusade, churchmen have been anxiously for an utterance by the Archbishop of Canterbury on the grave questions raised, which have agitated the whole body of churchmen. In a series of charges to the clergy, delivered this week, the primate spoke in a unaccustomed voice. He caused a profound impression in church circles and deeply aggrieved the Low Church party. The primate declared plainly that the doctrine of the Real Presence, as embodied practically in the doctrine of consubstantiation, is permitted, though not expressly taught, by the Church of England; that, although compulsory confession is absolutely illegal, voluntary confession is legal and no clergyman is justified in refusing to hear it, and he commended prayers for the dead, but forbade the invocation of the saints or the virgin. He declared that the elevation and reservation of the sacrament and use of incense are not permissible; but he approved of a certain revival of the ritual, in conformity with the prescriptions of the prayer book. Practically the primate sanctions all the doctrines and practices which the Low Church men have condemned so vehemently and the High Church men are elevated proportionately. Though they disagree with some points the majority of the clergy of the Church of England fall into line with the primate's charges or injunctions. Kensit, whose followers have been somewhat shaken by Truith's exposure of him, promises a demonstration in a thousand churches during the first Sunday in November.

POPULAR ENTERTAINMENTS.

Large Audiences Well Pleased With the Clara Mathes Company.

Mr. Maxwell Taken to Task for His Reticence Before His Constituents.

There was another well pleased audience at the A.O.U.W. hall last night. Laughter and applause were frequent, and many of the scenes were received quite enthusiastically. Little Miss Miller was a very bright little play that, while to some extent of a military nature, is not of the blood and thunder variety. The character of the well contrasted, and the story is well told and the humorous element strong. The cast was a good one, Mr. Chapman making an excellent Colonel Ellsworth. Mr. Conney gave an exceedingly good portrayal of a polished scoundrel, and Mr. Tooker's "Sam Gies" was a good light comedy performance. Mr. Victor played an Irishman cleverly; Mr. Marsh appeared as a Jew. Miss Clara Mathes had a part that she made admirably, and which she made the most. Miss Yenger was a good Rose, and Miss Foley played Savannah very well. The amount of the cast was fully up to the standard.

The company during their stay have shown their capability and versatility and also good taste in the selection of their plays, and if clean entertainments at popular prices do not become a permanent feature of the entertainment in Victoria it will not be the fault of the company.

The play to-night is "The Rumpole's Child," a play that has been very popular in the States, and has a great deal of bright comedy and many interesting episodes. There is also the force of the story, and the number of special features. The bill is an attractive one, and should draw a crowded house. There is a matinee at 2-30. The company is well known, and shows the company to great advantage.

Letters to the Editor. MR. SPEER'S LECTURE.

Sir: Referring to letters in the Times of the 20th inst. from Mr. S. Perry Mills and Mr. T. Catterall, I would just say that the fact of Mr. Catterall taking for history the amusing story given by the lecturer, without any intention to mislead, is a very good example of a man who is not to be trusted. The lecturer, in the "Night With Irishmen" of very much more interest. Very few seem to know anything about the history of Ireland, and I quite agree with Mr. Mills in the hope that the lecturer will give us another lecture with the same title, for I believe from Mr. Speer's reputation he could give one which would do credit both to himself and the subject, as well as give Mr. Catterall full value for his money.

However, I am pleased to learn that the lecturer, although it is the case, his Honor was scarcely correct in stating that the cause of the presence of such a fine audience was "A Night With Irishmen."

WHO'S AFRAID. Sir: Will you kindly correct the statement appearing in this morning's issue of your paper, relating to the formation of the Ladies' Basketball club. In this city, by stating that the club has been successfully formed, and that many applications for membership have been received, so that there is no doubt of the club's success, and that the ladies are not afraid of wearing the bloomers.

H. DALLAS HELMCKEN. President J. B. A. A. PARK FOR NORTH WARD.

Sir: As a resident of the North Ward I thank you for again calling attention to the fact that nothing has yet been done to provide the northern end of this city with a pleasure ground. We are just as much entitled to a pleasure ground as the southern portion of the city, but it is evident that the representatives for the North Ward do not think so. They have not yet put forward the first effort to secure such a desirable place. We have a fountain at the junction of Government street and Sanich road, paid for by the people of the North Ward, with the understanding that the civic authorities would have water flowing through it continuously, but it is allowed to stand without ever being used, a perfect eyesore to the passers-by. It is very clear that our representatives have no taste for the beautiful. I venture to say if the fountain had been in the South Ward it would have been used the whole year round, and I have no doubt that if the expenditures for each ward were published, it would be seen that the South Ward has received the lion's share of the revenue.

RECENT INVENTIONS. To temporarily repair punctures in pneumatic tires a new pneumatic band is formed of an endless web of elastic material, with clips at the ends, which is slipped over the band is stretched around the tire over the puncture.

SALMON REGULATIONS.

Blundering in the New Set for Which Responsibility Cannot Be Fixed.

Mr. Maxwell Taken to Task for His Reticence Before His Constituents.

On Thursday morning representatives of the fishing industry and others gathered at the board of trade, Vancouver, call of the British Columbia Salmon Packers' Association, to take part in an important conference with the British Columbia members of parliament. The senators had also been asked to attend, but were unable to do so. It was not alone canners who were present at the meeting. Mr. H. O. Bell-Irving presided. Circulars placed on the table showed that the sockeye salmon fishing industry is worth to the cities of British Columbia, in money paid out by the canneries on a pack of 600,000 cases, some \$2,180,000.

The chairman said the canners of British Columbia were menaced by new regulations, and he was afraid that if these laws were enforced to the letter, a large portion of the industry will be practically destroyed. This meeting had been called with a view to organizing, as quietly as possible, to place their views again before the government, with the idea that the objectionable features should be removed before irreparable damage was done. The canners had been equal to the task, whose interests the new regulations had been opposed. They were not in the interest of the canners, and could only be in the interest of a very few fishermen. They had not ascertained definitely from any British Columbia member of parliament that he had espoused or endorsed the regulations, and they wanted, if possible, to get the matter cleared up that day. They wanted to know who was responsible for this legislation and the reasons which had prompted this action. Speaking generally, he believed that if the regulations were enforced, it would have the effect of reducing the salmon canning business by something like 75 per cent., bringing such an element of uncertainty into the business that they would seek fresh fields for profitable investment. He would now take up the clause one by one and deal with them as shortly as possible.

CLAUSE I. Every applicant for a fishery license shall be (a) a British subject, resident in Canada, and a bona fide fisherman; and (b) before the 30th day of April shall personally enter his name and address in the register kept by the Inspector of fisheries or any authorized fishery officer. Before a license is issued to any applicant (a) the required fee shall be paid by the said applicant, and (b) he shall show his receipt for tax payment for the preceding year, or otherwise give proof of the payment of the same.

The principal objection they had to that clause was the compulsory registration on or before April 30, and they objected to fishermen having to show tax receipts.

Mr. Maxwell: "I suppose we are all agreed on the point that the men must be resident in Canada."

The chairman objected to the clause also because it would prevent fishermen from Halifax or Scotland, new to the province, from following a lucrative calling. Further, it would deprive all Indians of the right to earn a living by fishing, because no Indian paid taxes, and so could not show receipts.

CLAUSE II. Each bona fide fisherman being a British subject, registered for the purpose, at least in British Columbia, before the 1st day of July as required under clause 1, shall have a license issued to him by the fishery officer, and each such fisherman, either Indian or other British subject, whose name is enrolled in terms of the conditions stated in the license, shall have his name inscribed on the license by the Inspector or other granting the same at the time of its issue.

This clause was strongly objected to. At the strike the canners were engaged out down from 20 to 10. He would like to know why this salmon industry had been singled out to be dealt with in so harsh a manner. Privileges they had enjoyed for years had been taken away from them. They might just as well deprive lumbermen of their lumber licenses. In mining an alien could come in and take out the wealth of the country and engage in a most lucrative business of the country, and yet the canners' licenses were cut down by 50 per cent. at one stroke.

CLAUSE III. A fisherman's license shall not be transferable on pain of forfeiture, and the canner's license (in number to each canning establishment) shall be cancelled if the canner for which they were issued ceases to be operated.

Under this clause, if a fisherman, after spending \$200 on his outfit, was taken ill, could not transfer his interest to anybody else. Moreover, if a man is incompetent he could not be discharged by the canner. If the laws were enforced, the canners would be cautious in letting out their gear, as they would be at the mercy of the men.

CLAUSE IV. Each fisherman (whether employed by a canner or not) shall be at all times when carrying on fishing operations carry with him his license, and when he fishes, he shall exhibit it when required to do so by the Inspector of fisheries or other authorized officer.

This was a comparatively unimportant regulation, but the canners suggested that the case would be met if the fisherman carried a certificate saying that the license was deposited at the cannery.

CLAUSE V. Each boat engaged in netting operations shall have a number painted on the bow in black paint on a white ground, such number being entered and corresponded with the license. The letters or figures on the boat shall be plainly legible and not less than six inches high.

CLAUSE VI. All nets and fishing boats shall be numbered, and every boat shall have its number and the initial of its owner painted on it in a conspicuous place, and every net shall have the name of its owner or owners, as well as the numbers, legibly marked on buoys of wood or metal painted white, and floating on the water adjacent to each end of the net, and such names and numbers shall be permanently kept on the net, and the canner, when he fishes, shall be placed and kept so as to be visible without taking up the net or nets. Any net or fishing boat used without such mark shall be liable to forfeiture.

"We have very little objection to this clause, but it seems to have been turned around." The initials should be on the net and the name on the boat, but the regulation suggested that the initials only would do for boat and net.

CLAUSE VII. No one shall be engaged or employed as a boat-puller or boatman on any boat engaged in salmon fishing unless he holds a boat-puller's permit. (a) Each applicant for a permit must enter his name for the year in the list or register kept by the Inspector of fisheries provided in clause 1, and (b) any person so registered or entered must render one permit as such boat-puller or boatman on payment of a fee of \$1.

"This clause is objected to as a whole. It is an entire innovation in the industry. There is a great difficulty in getting properly qualified boat-pullers. The canners would work as harshly against the fishermen as canners. If a man proved incompetent it would be difficult for the fisherman to get another, as they would be hundreds of miles to fish for them. "We had to catch them like deer." They had to clothe and feed them, give them licenses, nets, everything and pay for their licenses. They depended entirely upon the native element.

Mr. Maxwell, M.P., being called upon said: "I have nothing to say. I cannot here to get your views and then carry them away to digest them."

Mr. Earle remarked that the chamber was well aware of his position on the fishery question. When Mr. Bell-Irving was in Ottawa on his way home from England they discussed the draft of the regulations. Professor Prince said they were simply suggestions. It certainly came with considerable surprise to him when he heard the regulations had been made law. He was satisfied that it would be perfectly impossible to carry out the regulations on the Fraser. He suggested that the fishermen wanted the regulations as they were before.

The chairman said unfortunately they were faced with an accomplished fact. The laws had been put into force and it was only fair that they should have a straight forward answer from their representative in Vancouver who also represented the northern fishery region. They had a certain amount of right to hear Mr. Maxwell's expression of opinion. (Hear, hear.) They wanted to know if their members laying on the shore obvious regulations.

Mr. Maxwell again said that he had been asked to only hear the views of the canners. "You shall not force me," he added.

Mr. Dawson—I don't want to use force at all. Mr. Maxwell—I will give my explanation when I want to.

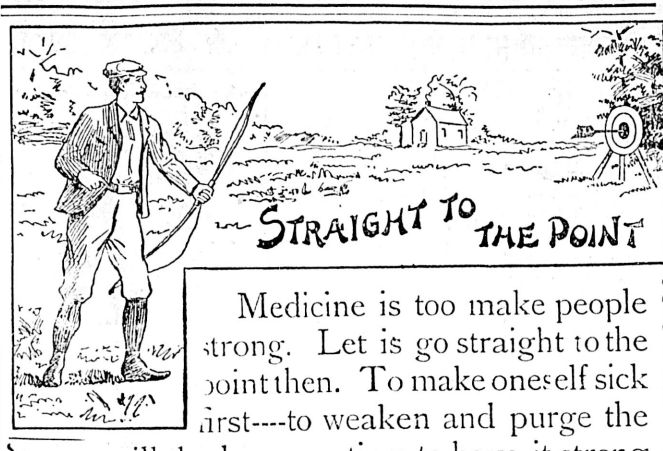

As there had been some talk of politics Mr. Earle said he did not look upon this matter as a political matter. (Hear, hear.) "I really think the canners should have the views of their representatives on the question. I cannot see for my life why Mr. Maxwell declines to say where he stands."

Colonel Pratt remarked that on cannery matters he had always been ready to support Mr. Earle, who was thoroughly posted. He could not see why Mr. Maxwell should object to state his views. Mr. Maxwell was surely not doing anything behind his constituents' backs. (Cries of "shame!") Mr. Maxwell—Speak for yourself and let

Dr. Williams' Pink Pills

Make Rich, Red, Life-Preserving Blood.

People Who Use This Medicine are Made Bright, Active and Strong.

Medicine is too make people strong. Let is go straight to the point then. To make oneself sick first---to weaken and purge the poor ill body, expecting to have it strong in consequence, is not going straight; it is aiming round the corner, and that is not the sort of aim that generally hits the mark.

DR. WILLIAMS' PINK PILLS FOR PALE PEOPLE.

act directly and straight. They build up and tone the eyetem at once. They strengthen and only strengthen. But be sure you obtain Dr. WILLIAMS'---look for the name "Dr. Williams' Pink Pills for Pale People." Don't accept anything that does not have that name printed on it in this shape

Take care that there shall be no missing words.

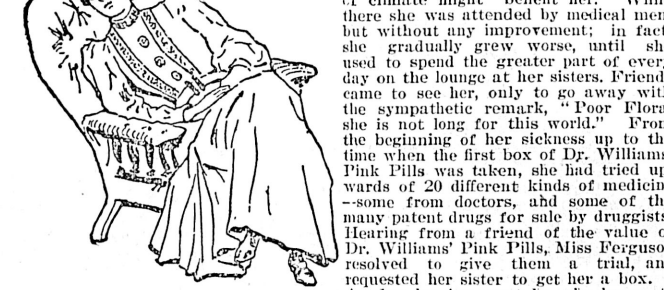

Dr. Williams' Pink Pills are sold by all dealers in medicine or sent post paid at 50 cents a box, or six boxes for \$2.50, by addressing the Dr. Williams' Medicine Co., Brockville, Ont.

GAINED THIRTY-NINE POUNDS.

The Experience of Miss Flora Ferguson, of Sydney--For Five Years She Was An Almost Helpless Invalid.

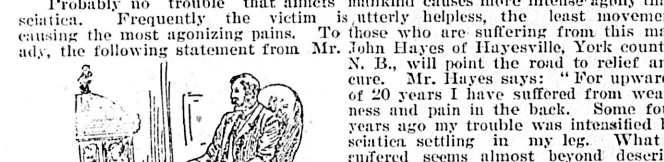

From the Sydney, N. S., Reporter. Many of our Cape Breton readers, especially those residing in Sydney and vicinity, will remember the subject of this article, and also know Miss Ferguson when residing at her home in Hardwood Hill, just on the borders of the town. From 1890 to 1895 sickness preyed upon Miss Ferguson, and from a bright and healthy girl she became an invalid, completely given up to weakness and despondency. In the spring of 1895 she left her home and went to the States, where she has a sister and other friends, thinking that a change of climate might benefit her. While there she was attended by medical men, but without any improvement; in fact, she gradually grew worse, until she used to spend the greater part of every day on the lounge at her sisters. Friends came to see her, only to go away with the sympathetic remark, "Poor Flora, she is not long for this world." From the beginning of her sickness up to the time when she first took Dr. Williams' Pink Pills was taken, she had tried upwards of 20 different kinds of medicine--some from doctors, and some of the many patent drugs for sale by druggists. Hearing from a friend of the value of Dr. Williams' Pink Pills, Miss Ferguson resolved to give them a trial, and requested her sister to get her a box.

As day by day went by, she began to feel better and her spirits to return, and in the course of a few weeks she walked a mile to the postoffice and home again. Miss Ferguson continued taking the Pills until she had used eight boxes, when she was completely restored to health and happiness. While ill she had greatly run down in weight, and at the time she began using Dr. Williams' Pink Pills she weighed 142 pounds and when she had completed the eighth box her weight had increased to 141 pounds. Recently she called at the home of the editor of this paper to leave her address, to have the Reporter forwarded to her at Arlington, Mass. During the conversation with her, the above facts were told to Mr. Richardson, the editor, and with beaming countenance Miss Ferguson agreed to have him tell the people "How Dr. Williams' Pink Pills brought her back from the gates of death to the enjoyment of health." He was astonished, as, being well acquainted with her when in Sydney, knowing how ill she was, and seeing her a physically changed person was enough to be amazed at the change.

AGONIZING PAINS OF SCIATICA. Probably no trouble that afflicts mankind causes more intense agony than sciatica. Frequently the victim is utterly helpless, the least movement causing the most agonizing pains. To those who are suffering from this malady, the following statement from Mr. John Hayes of Hayesville, York county, N. B., will point the road to relief and cure. Mr. Hayes says: "I have been afflicted with sciatica for nearly two years, and almost despaired of life. This continued for two years--years filled with misery. At this time I was advised to try Dr. Williams' Pink Pills, and after using six boxes both the sciatica and the weakness in the back, which has troubled me since, were gone. I am younger than before I began taking the pills. Nearly two years have passed since I discontinued the use of Dr. Williams' Pink Pills, and in that time no symptom of the trouble has shown itself. Under God I thank Dr. Williams' Pink Pills for what they have done for me."

Mr. Hayes voluntarily testifies to the truth of the above statement before Mr. Edward Whosead, Esq., J. P., and his statements are further vouched for by Rev. J. N. Barnes, of Stanley, N. B.

High School vs. Collegiate. The above teams played a friendly match on Thursday at Beacon Hill. The game turned out to be rather one-sided, the Collegiate being completely out-classed by their heavier opponents. The score was 9 to 0 in favor of the high school. Osborne and Alexander played well for the Collegiate.

RUGBY FOOTBALL. General Practice. At the general practice of the Rugby Football club which will be held at the Caledonia grounds this afternoon, the following teams will play, though any member whose name is not mentioned will be given a place on one of the teams:

Captain's team--H. A. Goward, A. F. R. Martin, K. Schofield, C. Gamble, F. Cullin, A. G. Goward, F. Smith, T. Cornwall, V. Jones, Jarvis, Richardson, Almyson, Smedley, Seaton, Fletcher, Vaughan, Poff.

Secretary's team--H. Gillespie, Moyses, Loewen, A. Gillespie, Pender, Daniels, A. Crease, H. Austin, G. C. Johnson, Little, Dunn, Langley, Macrae, C. Cullin, Fry.

The secretary's team will be in red jerseys; the Captain's in any other color.

HOCKEY. Practice To-Day. All members of the Victoria Hockey club are again reminded of the mixed practice this afternoon at 2:30 at the Oak Bay park, as it is most important to get into good shape at once. The gentlemen players are also requested not to forget the regular practices.

THE OAR. Conn Won Easily. Like most athletes, W. J. Deasy, the hero of many a battle in almost every field of sport, entered in just one event too many. Up to the present "Pat" has been looked upon as an almost sure winner in any event in which he was a participant, but this calculation was rudely shaken yesterday, when he met William Conn, the Albion Iron Works oarsman, in a three-mile race in skiffs. Conn beat him all his own way--in fact, had enough time to spare in taking four strong rests. He rows a fine clean and quiet stroke, and would give the best of the local oarsmen a hard race.

ASSOCIATION FOOTBALL. Boys' Brigade vs. Collegiate. The following team will represent the Boys' Brigade against the Collegiate school at Beacon Hill to-day, the game commencing at 2:30: Goal, W. Edmunds; backs, F. Mason and R. Burns; half-backs, J. Hogg, S. Lorimer and A. Haughton; forwards, A. Belyea, C. Temple, R. Dunn, H. Rosecamp and T. Feden.

THE TURF. Opening Meeting. The opening meeting of the Victoria Hunt club will be held this afternoon, a start being made from the barracks at 2:30.

HANDY LIST

VICTORIA FIRMS.

BAKERS AND CONFECTIONERS.

I am prepared to buy some good properties for any party who is unable to come out this spring. Parties wishing a claim or two should write me as early as possible, as I intend to leave in July to visit my family in Edmonton and to bring out my sons. Letters should be accompanied by draft on the American Commercial Co. or the North American Trading & Transportation Co. made in my favor. Being on the ground and having had some experience I am in a position to buy to advantage. Claims on unprospected properties can to-day be bought for from one to five thousand which may be worth fifty thousand next fall. Will be in Victoria early in August and again about the 20th. Or any parties preferring an deposit amount in a Victoria bank and advise me of the same and what amount they wish to pay for a claim, and I can bring out the bill of sale and records.

LOUIS OUTHRE, Dawson City, Yukon.

FOR READY REFERENCE.

Steamer and Railway Time Tables, Fire Alarm and Letter Boxes, Etc.

For convenient reference the following information in regard to the time tables of steamers and trains and on postal and other matters relating to the city will be found useful. The information is given as completely as possible for the benefit of the busy public.

VICTORIA-VANCOUVER ROUTE.

Steamer Islander leaves C.P.N. wharf daily (except Monday) at 1 p.m. for Vancouver, and arrives at Victoria at 7 p.m. daily (except Monday).

VICTORIA-WESTMINSTER ROUTE.

Steamer Princess Louise leaves C.P.N. wharf, Victoria, for Westminster and Fraser river points on Sunday at 11 p.m. and on Wednesday and Friday at 7 a.m.; arrives at Victoria on Monday at 9 p.m. and on Thursday and Saturday at 3 p.m.

FOR PORT ANGELES.

Steamer Garland leaves Turner, Beeton & Co.'s wharf on Monday, Wednesday and Friday at 5 p.m., and arrives at Victoria on Saturday and Wednesday at 3 p.m.

VICTORIA-COMOX ROUTE.

Steamer City of Nanaimo leaves the E. & N. wharf on Tuesday at 7 a.m. for Comox, connecting at Nanaimo on Wednesday morning with the train from Victoria. She arrives at Victoria on Saturday at 4 p.m.

NORTH B.C. ROUTE.

Steamer Danube leaves C.P.N. wharf, Victoria, for all Northern British Columbia ports and Skagway, Wrangell and Juneau on the 1st and 15th of each month at 8 p.m.

Steamer Queen City leaves C.P.N. wharf on same route on the 8th and 22nd of each month at 8 p.m.

Steamer Cuttle leaves Porter's wharf, Victoria, for Port Simpson and way ports on the 4th and 18th of each month.

WEST COAST VANCOUVER ISLAND.

Steamer Willapa leaves C.P.N. wharf for Abouset, Alberni and way ports at 8 p.m. on October 7th, 14th, and for Alberni, Cape Scott and way ports at 8 p.m. on October 20th.

RAILWAY TIME TABLE.

For Nanaimo, Wellington and Intermediate points, trains leave E. & N. station, Store street, daily at 9 a.m., and arrive at Victoria at 12:07 p.m. An additional train leaves Victoria Saturdays and Sundays at 4 p.m. and arrives at Victoria at 8 p.m.

For Saanichton and Sidney trains leave V. & S. station, Hillside avenue, daily (except Saturdays and Sundays) at 7 a.m. and 4 p.m., and arrive at Victoria 9:08 a.m. and 6:08 p.m. On Saturdays and Sundays trains leave at 7 a.m. and 2 p.m., and arrive at 9:08 a.m. and 6:08 p.m.

ROYAL Baking Powder

Made from pure cream of tartar.

Safeguards the food against alum.

Alum baking powders are the greatest menaces to health of the present day.

ROYAL BAKING POWDER CO., NEW YORK.

B.C. BOARD OF TRADE

New Zealand Trade Commissioner Addresses the Members at the Quarterly Meeting.

He Says His Colony Would Sooner Trade With Britishers Than Foreigners.

The principal feature of the quarterly meeting of the Board of Trade yesterday afternoon was an address from Mr. John Holmes, the New Zealand government commissioner who for three-quarters of an hour talked interestingly on the subject of his mission and the possibilities of developing trade between Canada and New Zealand.

At the opening of the meeting Mr. G. A. Kirk, the president, briefly reported on the various matters that had come before the council of the board since the last quarterly meeting and incidentally mentioned that while it was desirable to mark the 30th anniversary of the board on the 28th inst. the form this would take had not yet been decided upon.

Next came the reading of an article by Mr. R. E. Gossnell on agriculture, the paper being intended for publication in the annual report of the board. In it Mr. Gossnell after reviewing the advantages and drawbacks to farming in British Columbia suggested that a number of small experimental stations would be desirable in various parts of the province owing to the diversified nature of the country and climate.

A vote of thanks was accorded Mr. Gossnell and the report was directed to be printed with the annual report. The only other business of a routine nature was the adoption of changes in the table of commercial fees as recommended by the council and the election of the following new members: Messrs. A. E. Greenwood, B. W. Greer, James Thompson and H. McCa. Graham.

Mr. John Holmes, New Zealand's government commissioner, was introduced by the president and made a very attractive and businesslike address. At the outset he had some pleasant things to say about Canadian enterprise, evidences of which he had seen in many places throughout his long trip through Australia, South Africa and the Old Country. He was so struck with the results of the Canadian products he saw in Great Britain that he took the opportunity of saying in some of his addresses there that New Zealand should follow the example taught by Canada. Turning to New Zealand's trade Mr. Holmes spoke particularly of the excellent quality of the New Zealand hemp in softness of texture, length of fibre and other qualities. He touched briefly on the expansion of the export trade in this article which had grown enormously of late years. While his mission was the result of the agitation of the hemp millers of the colony to extend their market, his duties were not confined to the fibre trade. Kauri gum was another article in which a large export was already done and a very largely increased trade had been opened up recently in it as a result of his trip. Incidentally Mr. Holmes spoke of the value of grading for export as it gave the purchaser a better chance of knowing what he was getting. He believed that in lumber and canned fish British Columbia could do an increased export trade to New Zealand, especially the export of condensed milk, especially with shipping to one resident merchant, exporters would send to some neutral agent who would send out his travellers throughout the colony instead of the goods being confined to the clientele of one commercial house. There was a fine market for boots, shoes, cottons, paper and other manufactured articles in New Zealand and Canada also should get a large share of tourist travel. In this last particular he promised to give all the assistance he could by telling of the advantages of travel through the Dominion and the fine scenery along the route. Having told about what New Zealand is doing in the frozen meat, butter and cheese industries, Mr. Holmes closed by referring to the legislation in the colony on female suffrage, which, he said, resulted in a wider and more intelligent knowledge being diffused through the country on political questions. The compulsory arbitration act by which trades disputes were settled had also been productive of great good. New Zealand was more prosperous to-day than she had ever been before and the people there were desirous of doing business with British preference to foreign countries. A feeling, he found, reciprocal throughout Canada also.

Applause and a vote of thanks followed Mr. Holmes' remarks and the members present spent some time in looking over the specimens he showed of New Zealand lamb and kauri gum.

Dr. Von Stant's Pineapple Tablets for the Stomach—New, convenient, positive, pleasant, harmless cure for Sour Stomach, Distress after Eating, Weight in the Stomach, Wind on the Stomach, Loss of Appetite, Dizziness, Nausea, Impoverished Blood, Sick Headache and all other stomach troubles directly traceable to indigestion; 35 cents. AN IMPRESSION OF THE ARMY.

(Written by Conan Doyle, at the time of the autumn manoeuvres.)

The town of Blandford presented last week an interesting field for the man who should desire to make a study of the varied types taken from far and wide in the three kingdoms and broken up by that great levelling machine, the British army. On the Downs above the town lay 25,000 men of all arms, and a good proportion of them were to be seen each evening in the old-fashioned High street. Let me transport you there and ask you to stand with me under the portico of the Crown hotel, whence we may see them pass. All round us the officers are smoking their after-dinner cigarettes. Straight, soldierly figures these, clean-cut and slim, open-air men with the rich tint of the wind and the sun upon their young, handsome faces. And they are all young—that is the amazing part of it. The moustache may be tinged with grey, the ribbon upon the breast may speak of a long career, but the straight back, the alert manner, the bright eye, forbid you to say that they are anything but young. The subaltern may be a little smoother, but the major rather more hawk-like, but there is always the same impression of youth. Old Time seems to be among the many enemies whom the British officer has laid low.

And if we may dwell a little upon this group of cigarette-smoking officers under the homely Dorsetshire hotel porch, how strange it is to see that the modern military history of the country is written upon their breasts. That blue and white ribbon tells you that the quiet gentleman with the eyeglass helped to give Ararat his coup de grace. It does not tell you that he was in the broken square at Abu Klea and has Fuzzy's shovel-spear trade-mark upon his left hip as a local souvenir. Those two have the Afghan badge, and follow the reports on his 300-mile march to Kandahar. The next has the yellow and black stripe of the men who broke the tyranny of the Zulus. That bit of color means Burnham and the other stands for the black Mountain expedition. They are emblematic of the young, fresh-faced men with the cigarettes; and they are more than that, for they are the bodyguard of civilization herself wherever she advances into the waste places of the world. The blood-worship of Ashutene, the dark fanaticism of Mahdi, the barbarity of the Zulus, the brigandage of the hillmen—it is these lancers and their comrades who have eradicated them all.

And you stand and smoke beside them a double file of soldiers, who flow along the High street in front of you. Some are alone, but not many, for Tommy is a man of gregarious and companionable tastes, and three or four is his favorite number for an evening's outing. The climax of his joy is attained when his own group confers with several other ones to line of parlor with four daddies of red serge. Then over many beers he will sing to a dismal tune, in a voice husky with emotion and tobacco, the most dispiriting ditties. Tommy will sing his own songs, the songs of his heart, and neither poet nor critic shall make a law for him. In vain you give him what you think he ought to hear. He still insists upon taking what he likes, which is a very different article. There is the open window of one of those red-serged rooms opposite—smoking like the mouth of a gun. It is not "Mandaly" which comes rolling through it. Kipling—vorse luck!—has never got below the Non-Com, smoker, to make and ask something cruder and more obvious. Listen to it:

My trigger I pull it.
He has accepted my bullet.
And down on the ground he fell.
Then came thirty hoarse voices baying in the chorus:

Here upon guard am I
Ready to do or die
And so on, and so on, bad words, false sentiment, sham patriotism, but beloved of Tommy all the same. Go where you will in the canteens at Cairo in the desert camp, in an Indian cantonment, and you will still hear the same crude verses and whining present business, however, is not with the music of the bar parlor, but with this flow of life which has brought a woman's face to every window. Here is a line of the Connaught militia, rough, cheery fellows with their hair stained red, tunics and dark green shoulder straps. Finer men, or more soldierly, than some of the Irish militia do not camp upon the Blandford Downs. They pass in and out through the lane of light thrown by the hotel lamp. Here is a group of the dark green riflemen, there a couple of long-legged, spur-jingling dragoons, here a mounted infantryman, with his brown cords and blue puttees, there a swarm of the stocky, clean-rung lads with the pink faces and white tunics, who make up the rank and file of a short service army. They are young, but they have the virtues of youth. There is adaptability, enthusiasm, cheeriness. And, after all, this talk about the boy soldier in the British army has been very much overdone. I have seen very many thousands of them within the last week near enough to look into their eyes, and the impression which they have left is that of alert manhood, smart and intelligent, at the very age for the maximum of physical work. A little campiness, a little hardening, and they are still the soldiers of Barossa and Albuera, still the infantry which live again in Napier's fiery pages. The years have only added intelligence, education and morality. Another Badoji or San Sebastian may be stormed, but never again will it be sacked and burnt upon the discipline the British army will not be renewed by the youngsters.

You have but to stand here and use your eyes to convince yourself that this adverse criticism has been pushed too far. These bright-faced fellows, with their boyish swagger, their beloved forelock curled over the side of their forehead, their heels beating crisply upon the pavement as they pass, are as good material as an officer could wish to handle. They are the material which the officers in the portico have handled when they set right all those little entanglements above mentioned. There may be more fire in the Highlander, and more devilment in the Irishman, but you will hear officers of long service say that when it comes to a hardy nature they are perfectly satisfied if they can have beside them the patient, docile, sturdy infantry of the English shires. Patient are they to a degree. For a week I have seen them heavily laden and overmarched, with a blazing sun above them holding on tenaciously to their work. The grumblers met with no sympathy from their comrades. "God bless me, call this soldiering!" I heard one limping infantryman cry. "Sorry you 'hated, ain't you?" cried the others. "Come, Jerry, give us a step dance, old man." And the relations between the company officers and the men are admirable. You will see the rear company captain, like a hen with a straggling line of chickens, exhorting and advising the stragglers. Give me your gun a bit. Now, loose your straps. Well, if you must fall out, don't be more than two minutes. "No, sir, I won't." And he isn't.

But the pubs are shutting in Blandford. The singers are all out of the bar parlor, and you can hear them down the road: Stand aside and let me go.
Nineteen jolly boys all in a row—
Nineteen jolly boys. . . .

"A bay 'orse and two polo ponies!" cries the hostler. "Trap ready for the camp!" shouts a voice in the darkness. The Irish doctor is telling a story. The general inspected us until he saw Cornelius Kane, and then his stomach turned and he dismissed us." There is a murmur of laughter, the bustle of feet; hoofs clatter upon the stones, the door of the "Crown Inn" closes and Blandford is its quiet, sleepy self once more.

WORTH TRYING IF SICK.

A verified record—1,016 persons cured in one month by Dr. Chase's Family Remedies. All dealers sell and recommend them.

Dyspepsia Cured.—Shiloh's Vitalizer immediately relieves Sour Stomach. Coming up of Food Distress, and is the great Kidney and Liver remedy. Sold by Cyrus H. Bowes.

a degree. For a week I have seen them heavily laden and overmarched, with a blazing sun above them holding on tenaciously to their work. The grumblers met with no sympathy from their comrades. "God bless me, call this soldiering!" I heard one limping infantryman cry. "Sorry you 'hated, ain't you?" cried the others. "Come, Jerry, give us a step dance, old man." And the relations between the company officers and the men are admirable. You will see the rear company captain, like a hen with a straggling line of chickens, exhorting and advising the stragglers. Give me your gun a bit. Now, loose your straps. Well, if you must fall out, don't be more than two minutes. "No, sir, I won't." And he isn't.

But the pubs are shutting in Blandford. The singers are all out of the bar parlor, and you can hear them down the road:

Stand aside and let me go.
Nineteen jolly boys all in a row—
Nineteen jolly boys. . . .

"A bay 'orse and two polo ponies!" cries the hostler. "Trap ready for the camp!" shouts a voice in the darkness. The Irish doctor is telling a story. The general inspected us until he saw Cornelius Kane, and then his stomach turned and he dismissed us." There is a murmur of laughter, the bustle of feet; hoofs clatter upon the stones, the door of the "Crown Inn" closes and Blandford is its quiet, sleepy self once more.

WORTH TRYING IF SICK.

A verified record—1,016 persons cured in one month by Dr. Chase's Family Remedies. All dealers sell and recommend them.

Dyspepsia Cured.—Shiloh's Vitalizer immediately relieves Sour Stomach. Coming up of Food Distress, and is the great Kidney and Liver remedy. Sold by Cyrus H. Bowes.

PAINE'S CELERY COMPOUND

THE WORLD'S BEST AND MOST RELIABLE MEDICINE.

A Marvellous Cure in Hamilton, Ont.

When Life is in Danger and When Doctors Fail, PAINE'S CELERY COMPOUND Gives New Life.

Miss Blake, writing from 303 Hughson Street, Hamilton, Ont., says:

"For years I suffered greatly, and was under the care of doctors who finally told me I was going into consumption. I was becoming worse through the use of medicines, and I gave up my doctors. While in a very critical condition, not able to sleep or rest, always faint and weak, appetite and digestion bad, and my system run down and little life left in me, I commenced to use Paine's Celery Compound. After taking one bottle I felt much relieved. I have used in all seven or eight bottles, and am now a new woman, can enjoy life, and am as well as I wish to be. Many thanks for your great medicine."

NORTHERN PACIFIC OFFICERS.

The Displacement of Britishers on Account of Changed Registry of the Vessels.

The Tacoma Ledger of Thursday says: "The court yesterday decided Second Engineer Henry Perritt and First Officer J. Alvan, of the Northern Pacific liner Tacoma, although born in Great Britain, are entitled to American citizenship because they came to this country with their parents before reaching their majority. The fate of the other officers aboard the Tacoma is withdrawn from the ship when she takes the American flag, for they are all Britishers. It is understood they have all declared their intentions to become Americans, but the navigation laws of the land exclude from American vessels all licensed officers save those of the United States."

The work of inspecting the Tacoma was begun yesterday by Messrs. Bryant and Cherry, inspectors of hulls and boilers for the government, and will probably be finished to-day. Capt. Smith, to be master of the Tacoma, and Duncan Cree, to be first engineer, of the ship, were in Tacoma yesterday. Mr. Smith arrived from California, and Mr. Cree from Seattle. Others who will go with the ship as engineers are John Gillespie, Thomas Stewart and Charles Creamer. As the British officers of the Tacoma signed with the change of flag, the company is under obligations to take them back to that port, and it is thought that the majority of those who are to be discharged from the vessel will take advantage of the condition, and return there, as Hongkong being one of the largest maritime ports of the world, affords better opportunities for seafaring men to get positions.

Steamer Victoria, of the Northern Pacific line, which is also to take the American flag, is likely to arrive at Victoria to-day, and may be in Tacoma by to-morrow. The majority of the officers of the Victoria are Britishers, and it is expected the same course will have to be pursued in regard to officers of that ship as is being followed on the Tacoma in the change of flag.

A Working Man

Able to Keep His Place in Spite of Difficulties.

He Writes About His Condition—Wife and Children Helped.

WALLACEBURG, ONT.—The following letter will prove of interest to working men and others who may be in a condition similar to that of the writer: "For three years I was subject to poor spells. I always felt tired, could not sleep at night and the little I could eat did not do me any good. I have been working at the barber trade for about 20 years and for the last four years I have been very closely confined and have had my meals very irregularly. I was taken with a

Very Severe Cough

and the doctors said it was caused by my stomach troubles. I lost flesh and became so weak I was hardly able to stand up to the chair to work. One day I happened to be looking over some testimonial letters and I thought I would try Hood's Sarsaparilla. Before I had taken two bottles I began to feel better and in a short time I felt much stronger and had gained 21 pounds in weight. I have taken nearly five bottles and now I feel like a man again. I am

Strong and Healthier

than I have been in my life. My wife and children have taken Hood's Sarsaparilla and feel much better. As for myself I cannot say enough for it. I firmly believe that it has not been for Hood's Sarsaparilla that I have been able to work so long. I have never been any longer." JOHN W. CROFT. Get only HOOD'S. Hood's is the best after-dinner food, the best digestion. 204.
